Hardy Herbaceous & Alpine Plants

The WAYSIDE GARDENS CO.
Mentor, Ohio

25th Edition
Spring 1928
At the commencement of another season, we once again desire to place our entire organization at the service of our many customers, whose needs we were never in a better position to supply than at the present time.

The demand for high grade field-grown plants, and the higher standard of gardening now practiced by everyone has created the natural desire to grow everything of the best. Our fine strains of Delphiniums, Phlox, Peonies, Iris, and hundreds of other Perennials and Alpine Plants are, therefore, in greater demand than ever; and, each succeeding season brings many additions to our already large list of clients throughout the United States. In this connection, however, we find it necessary to issue a warning to those who are desirous of obtaining our well known plants.

As it is often brought to our notice that other people try to name their nurseries "Wayside Gardens", we cannot emphasize too strongly the fact that the true Wayside Gardens Hardy Plants can only be obtained from our nurseries at Mentor, Ohio, or through Landscape Architects and legitimate nurseriesmen or seedsmen, in which case our plants will bear the Wayside Gardens plant labels.

We have spared neither trouble nor expense in the production of the plants enumerated in this catalog and we offer them with the fullest confidence as to their general excellence, reliability, and ability to create a perfect garden within an exceptionally short space of time.

Terms of business will be found on page 79, and a complete index to this catalog on page 80, the use of which will facilitate the study of its contents.

The Wayside Gardens Co.

April 11, 1927

The Wayside Gardens Company,
Mentor, Ohio

Gentlemen:

I cannot refrain from acknowledging the receipt of one of the best shipments of Perennials it has ever been my privilege to receive. The crate arrived the early part of last week. The packing was done as nearly scientifically as anything I have ever seen. Alternating layers of excelsior and moss proved to me that the plants could neither heat nor dry out, so I let the entire shipment stand until the week-end.

Saturday I got busy, found the trowel and began to set out the plants. I soon found that the trowel wouldn't work. The root systems of such plants as Astilbes (Spireas), Hardy Asters, Thalictrum, Lupins and Delphiniums were such as called for digging trenches with a spade. Even smaller growing Perennials, like Primroses, Leontopodiums, Poppies and other plants for the rock garden, had root systems truly remarkable for their kinds.

Thank you for this 100 point Service. It is one sure way to great possibilities before you.

Sincerely yours,

HLJ/J

South Orange, N. J.
April 10th, 1927
Undoubtedly one of the most interesting features in a garden is a rockery furnished with mountain plants commonly known as “alpines”

Few plants indeed yield so much pleasure to the cultivator as the alpine pinks, aubrietas, creeping phloxes, veronicas, etc., in the Spring and early Summer. When well established in bold masses on the rocks, and laden with their wealth of blossom, they quite surpass all other hardy flowers in their beauty of color and simplicity of growth.

To grow these and the many choicer alpines successfully is, to the enthusiast, one of the most delightful phases of the gardening art and craft. In fact, it is a hobby which has secured many ardent disciples during the last few decades, and prompted Wayside Gardens to produce these plants in great quantities and of large size so that they may establish themselves easily and give results quickly.

All plants offered in this catalog are strong field-grown roots, especially grown to a size which will give the planter immediate results. There are two or three instances where it is impossible to use other than pot grown plants in order to obtain the best results. Where those plants are ordered we send out strong two-year or three-year-old pot plants. The prices charged for our stock are based on the above mentioned facts.

We will gladly furnish prospective customers with names of well known nurserymen and landscape architects who have used our plants and bulbs for many years to their utmost satisfaction.
We are offering this year new European varieties and also the best of the standard sorts, selected for their early flowering qualities, freedom of bloom, and usefulness as cut flowers. The plants are all two-year-old field-grown roots, not small pot plants, as has been customary to send out.

For earliest flowers, we recommend Hupehensis which commences to flower early in September; it makes a wonderful showing until the middle of October when Alice, the new pink variety, puts in its appearance. This is closely followed by the two best white, Japonica Alba and Whirlwind, and two other well known pink varieties: Queen Charlotte and Kriemhilde. Prince Henry is a fine, double, dark reddish-pink variety. Richard Ahrends, Buhler Kind, and Max Vogel, we would like to let speak for themselves. They are offered on page 8.
Japanese Iris

During the past years a great deal of attention has been given to the improving of German Iris. During these same years we devoted our special attention to the much harder and slower process of improving the Japanese Iris. Of the thousands of seedlings that we have raised only a few of the very best are now offered for sale for the first time. On page 33 we list a wonderful collection of these beautiful Irises. Varieties such as Albatross, America, Columbia, La Tosca, Lavender Giant, Matchless and Olympia, are most exquisite. There are also other varieties listed on that page which are unusually fine. Conservative as we are we do not hesitate to say that our collection is the finest and most worth while in America today.
The Wayside Gardens Company, Mentor, Ohio

General List of Herbaceous and Alpine Plants

ACHILLEA (Milfoil or Yarrow).
Plants suitable for dry, sunny places. The dwarf kinds are useful for carpeting or for rockeries; the taller varieties as border plants.

</table>

ACORUS (Sweet Flag).
Calamus. 2 feet. June-July. Iris-like plant. Root stock pungent, aromatic. Thrives best in moist soil, and may be grown in shallow water or dry land | .85 | 2.50 | 18.00 |

ACTEA (Baneberry).
Alba. 2½ feet. A fine shade-loving plant, having long spikes of clear white flowers. Effective as a border plant and in shady woodland plantings | 1.00 | 3.00 | 20.00 |
| Rubra. Red form of the above | 1.20 | 3.50 | 25.00 |

ADENOPHORA.
Potanini. Resembles the campanula, producing several spikes 18 to 24 inches high which are loaded with blue campanula-like blossoms from July until October | 1.75 | 5.00 | 40.00 |
AETHIONEMA (Persian Candytuft).
These hardy little rock plants are of the most fascinating character. The foliage is a beautiful, glaucous blue; stems woody, and when covered with their heads of pink blossoms, make a picture not to be forgotten. We supply pot plants only, as field plants are hard to establish. They are almost shrubby in habit, and are improved by a slight cutting back after blooming. Stony, sandy loam is suitable for them and a warm, sunny position.

Three Doz. 100

Grandiflorum. Strong, twiggy bushes, covered with long, slender spikes of rosy pink flowers. One of our best rock plants. June-July $1.40 $4.00 $30.00

Persicum. Somewhat deeper in color than Grandiflora. 6 inches. June-July 1.40 4.00 30.00

AGROSTEMMA (Rose Campion).
Stout, erect-growing plants with silvery foliage, which contrasts well with the showy flowers, which are produced during June and July.

Three Doz. 100

Coronaria (Mullein Pink). Bright rosy crimson. 2½ to 3 feet $0.85 $2.50 $18.00

AJUGA (Bugleweed).
A useful plant for the rockery and for carpeting the ground, particularly in shady positions, as under trees and shrubs; flowers in May and June.

Three Doz. 100

Genevensis. Grows 6 to 8 inches high, with dense spikes of blue flowers $1.20 $3.50 $25.00

Reptans rubra. Grows 3 to 4 inches high, with deep purplish blue flowers 1.00 3.00 20.00

ALYSSUM (Rock Madwort).
Very popular early-flowering perennials of easiest culture and all very free flowering. They all like a well drained soil and sunny position. Useful in the border as well as in the dry wall or rock garden.

Three Doz. 100

Argenteum. Dense growth. Leaves silvery beneath, flowers yellow in clustered heads, all Summer. About 15 inches $1.00 $3.00 $20.00

Rostratum (Alpestre). Prostrate, almost shrubby variety, hoary grey all over. Flowers pale yellow, in unbranched heads. May to July 1.00 3.00 20.00

Saxatile compactum. Broad masses of bright yellow flowers in early Spring. An excellent plant for the rockery or front of borders. 1 foot $0.85 2.50 18.00

Serpullifolium. Very dwarf, 4 to 5 inches high, with racemes of pale yellow flowers and rough, hairy leaves. Charming for the rock garden 1.10 3.25 22.50

AMSONIA.
Tabernaeontana. 2 to 3 feet. Late May and early June. Small and numerous flowers of light blue in panicles. Smooth foliage fine for the hardy border or planted among shrubbery 1.35 3.75 27.50

ANCHUSA (Alkanet).
For producing a mass effect of brilliant blue, the Anchusas cannot be surpassed. They should be treated as biennials, as the old plants exhaust themselves at the end of two or three years. They reproduce themselves, however, from self-sown seed. The blooming season can be extended for several weeks by cutting the spikes as soon as the flowers fade, thus preventing seeding.

Three Doz. 100

Dropmore. Tall spikes of beautiful blue flowers, flowering all Summer. Rough, broad foliage. 4 to 5 feet $1.00 $3.00 $20.00

Opal. Very beautiful variety, with large pale blue flowers. 3 to 4 feet 1.00 3.00 20.00

Myosotidiflora. A distinct, dwarf perennial variety from Russia, with clusters of charming blue flowers resembling forget-me-nots. An effective rock plant for shady places. 1 foot. May-flowering 1.20 3.50 25.00

ANDROSCAS (Rock Jasmine).
Typical Alpines, fascinating because of their great beauty. Many of them are difficult to grow, their worst enemy being early Spring rains. We are listing only the easiest. They require very gritty soil, the stones furnishing the cool moisture their roots enjoy. In sticky clay or hot, loose sand, they will soon dwindle and die.

Each Doz.

Sarmentosa (Chumbujli). One of the easiest and best. Rosettes of silky foliage and heads of verbena-like blossoms of pink on stems about six inches high. From the Himalayas. June- and July-flowering $0.75 $9.00
The Wayside Gardens Company, Mentor, Ohio

ANEMONE - Windflower

ANEMONE JAPONICA (Japanese Anemone)

Valuable plants suitable for massing or single specimens. They grow rapidly and are profuse in bloom, gaining strength and beauty each year. The blooming period extends from September till mid-November, the large, open flowers furnishing abundant cut flowers and a brilliant field display. Cover plants in Winter. We offer strong, field-grown roots.

ANEMONE SPECIES

Hupehensis (Early Anemone). Was originally introduced from central China, is closely allied to Anemone japonica, which, in a miniature form, it resembles. The plant grows from 12 to 14 inches high and from early in August until late in Autumn produces an abundance of flowers about 1½ inches in diameter, of a pleasing mauve-rose, much harder than the japonica varieties.

| Hupehensis flore pleno. | Double form of the above | 1.20 | 3.50  | 25.00 |

Pulsatilla (Pasque Flower). Grows from 9 to 12 inches high and produces violet or purple flowers during April and May. An interesting plant for the rockery or well drained border.

| Pulsatilla rubra. | Of dwarf habit with reddish purple flowers | 1.10 | 3.25  | 22.50 |

Narcissiflora. Exquisite alpine meadow plant with heads of a dozen or more white flowers. Buds are tinged with red. 9 inches high. June flowering.

| Sylvestris | Fine for cool, moist corner of rock garden or border. Large, white blossoms on nodding stems of about 12 inches. Very free blooming. May and June | 1.40 | 4.00  | 30.00 |

ANTHERICUM.

| 1.75 | 5.00 | 40.00 |

ANTHEMIS (Marguerite).

Tinctoria. Handsome, finely cut foliage, and large, golden yellow flowers produced all Summer. Succeeds in the poorest soil; excellent cut flowers.

| .85  | 2.50  | 18.00 |

ARABIS (Rock Cress).

One of the most common of rock plants. Ordinary soil is suitable but they must have a sunny position.

**AQUILEGIA - Columbine**

As a cut flower the Long-Spurred Aquilegias are the daintiest of our outdoor grown flowers. They remain in bloom for a long season. They are not at all particular as to soil or location, although they prefer a sandy loam and a moist but well drained position, and usually make themselves at home in any hardy border or rockery. Their period of flowering covers the late Spring and early Summer months. Taken as a whole they are a most important part of the hardy garden, and should be grown in quantity by every lover of old-fashioned garden flowers.

**ARMERIA (Sea Pink or Thrift).**

Attractive dwarf plants that will succeed in any soil, forming evergreen tufts of bright green foliage, from which innumerable flowers appear in dense heads, on stiff, wiry stems, from 8 to 12 inches high. They flower more or less continuously from early Spring until late in the Fall. Very useful in the rockery and border edgings.

| **ARTEMISIA (Sage Brush).**
| **Lactiflora** | A tall-growing plant of fine foliage and heads of small white flowers in August and September, which fill the garden with fragrance. A splendid and graceful cut flower. | 1.10 | 3.25 | 22.50 |
| **Silver King** (Ghost Plant). | A strikingly effective white-leaved contrast plant. A beautiful "mist" for setting off bouquets and floral combinations. The opening leaf buds gleam like tiny beads; the entire color effect bright frosted silver. The plants are matured and very showy early in Summer. 3 feet high. Long sprays may be cut to mix with Winter bouquets. | 1.10 | 3.25 | 22.50 |
The Wayside Gardens Company, Mentor, Ohio

ASCLEPIAS (Butterfly Weed).

Asclepias Tuberosa.

Tuberosa. Attractive native plants, flowering during July and August, and growing about 1 1/2 feet high. Umbels of bright orange colored flowers. $0.85 $2.50 $18.00

ASPERULA (Woodruff).

Odorata. 6 to 8 inches high. May. Increases rapidly and is used for carpeting shady places and in the rock garden. Heads of snowy white flowers. A fine, scented herb reminding one of new mown hay. 1.10 3.25 22.50

ASPHODELUS (King's Spear).

Luteus. Tall spikes of bright yellow flowers; very fragrant; sword-like foliage; fine for borders. 1.10 3.25 22.50

HARDY ASTERS (Michaelmas Daisies)

The many species, widely distinct from each other in habit and form, are, with a few exceptions, all native of North America. It is in Europe, however, that our Asters have been most highly appreciated. Many improvements have been made by European growers, and many hybrid forms have been produced by crossing different species. For the best results, they require division and replanting every third year. All are about 3 to 4 feet high.

Blue Gem. Double flowers of rich blue; the best blue in cultivation. $1.20 $3.50 $25.00

Charm. Very double violet-blue flowers. 1.10 3.25 22.50

Climax. One of the best and showiest, with large, pyramidal spikes of large, light lavender-blue flowers; very free. 5 feet. Excellent as a cut flower. 1.00 3.00 20.00

Erica. A beautiful clear pink; large semi-double flowers. 1.10 3.25 22.50

Elsie. Semi-double flowers of pale lilac. Handsome shade; free flowering. 1.10 3.25 22.50

Felltham Blue. A pretty aniline blue; very free. 1.00 3.00 20.00

Glory of Colwall. Good sized, almond; ageratum-blue flowers. .85 2.50 18.00

Grey Lady. Exquisite shade of opal, with large, semi-double flowers. 1.10 3.25 22.50

Joan Vaughan. Large, semi-double flowers of deepest blue. 1.10 3.25 22.50

Lady Lloyd. A very fine, clear rose-pink. Lasts exceedingly well. 1.10 3.25 22.50

Mauve Queen. Very large, semi-double flowers of clear mauve. 1.10 3.25 22.50

Maggie Perry. Very large flowers, loosely arranged in large trusses, of a pleasing tone of soft mauve. 1.10 3.25 22.50

Mrs. Haynes. The nearest red of all Asters; good form. 1.20 3.50 25.00

Novae-angliae roseum superbum. Almost red and a profuse bloomer. 1.10 3.25 22.50

Perry's White. Perfect in habit and remarkably free flowering. The stout stems are well branched and covered with flowers. 1.00 3.00 20.00

Peggy Ballard. Large, pyramidal sprays of double, rosy mauve flowers. 1.20 3.50 25.00

Robinson V. C. A pretty bluish mauve, double flowers borne in long sprays. 1.10 3.25 22.50

Sam Benham. Early flowering semi-double white. The best of all white Michaelmas Daisies; produces large flowers; fine for cutting. 1.20 3.50 25.00

St. Egwin. A pleasing rose-pink; dwarf habit. .85 2.50 18.00

White Climax. A late flowering, large single white, good for cutting. .85 2.50 18.00

Japanese Hardy Asters

Mauve Cushion. An entirely distinct species. It forms a circular cushion-like plant 2 1/2 feet across, rarely exceeding 9 inches in height, the flowers, of delicate, soft mauve, with silvery white reflections, measure over 1 1/2 inches in diameter, and are produced in such lavish profusion as to completely cover the plant; the blooms begin to expand early in October, but are not at their best until November. 1.20 3.50 25.00
HARDY ASTERS

Species

Some of these are little known and not used enough. Most are excellent material for the rock garden, or in front of the border. The Alpinus varieties and others produce brilliant flowers three inches across. They are splendid for cutting as well as in front of the hardy border.

<td>Floribunda</td>
<td>Produces a mass of very attractive lavender-blue flowers. Height 4 to 5 feet. In bloom in October.</td>
<td>$1.20 - $25.00</td>
</tr>
</tbody>
</table>

ASTILBE (See Spirea).

AUBRIETIA (Rock Cress or False Wall Cress).

One of the daintiest and most delicately beautiful of all dwarf, creeping plants for carpeting beds or rockeries, forming brilliant sheets of violet, crimson or rose for many weeks. Massed on rockeries or in borders with white Arabis and yellow Alyssum, it forms a charming contrast. A gem for planting in crevices of rocks or wall, forming a cataract of color.

Campanula Medium - Canterbury Bells

These imposing biennials are profusely covered with large, bell-shaped flowers; extremely showy in mixed borders. Height 3 feet. Plants potted in October make most beautiful plants for the conservatory and greenhouse in the Spring, coming into flower, without being forced in any way, about two months before those in open ground.

CHRYSANTHEMUMS

GARDEN VARIETIES

The following varieties are perfectly hardy if grown in a place not too wet. After thorough watering cut the dead stalks down to within two or three inches of the ground and cover with dry leaves. In the Spring, after they start to grow, divide so one shoot will remain for the future plant. 2¼-inch pots will be supplied in the Spring from March 1st until July 1st. In Autumn we supply field grown clumps.

Angelo. Very early, free-flowering, beautiful, light pink: flowers large, and a very hardy variety.

Octava. Tall growing, midseason with large pure white flowers with cream clusters carried on good strong stems. Excellent cut flower sort. Flowers often 4 to 5 inches across.

Oscar. Medium height, midseason-flowering. Produces large, loose golden yellow flowers with pink sheen near the center. Orange-red, changes to golden yellow.

Ouray. Medium height, early-flowering. Flowers are good sized pompons about 1½ inches in diameter, carried on strong, straight stems. Petals are a deep golden orange-red. Good for cutting. We consider this the most brilliant Chrysanthemum.

Provence. Early and dwarf, very free-flowering sort. Pale pink flowers fading to white with yellow center. Excellent cut flower and hardy.

Rose Travena. Late-flowering, rather tall with very large, deep rose-pink flowers. A good hardy variety.

Ruth. A button-shaped variety. Rather late-flowering but always good. The small blossoms are a brilliant claret-red.

Skibo. A very early-flowering pompon type of medium height. Plant covered with blossoms which open bronze, changing to a rich yellow retaining a small bronzy center. Flowers about 1½ inches across. Very hardy variety.

The Wayside Gardens Company, Mentor, Ohio
The Wayside Gardens Company, Mentor, Ohio

GARDEN CHRYSANTHEMUMS—Continued

Snowdrop. Midseason and of medium height, plant rather loosely formed. The best pure white button known, is very hardy.

Tints of Gold. Early-flowering, of medium height. Flowers are large, of rich golden yellow suffused with red near base of petals. Very striking variety.

White Doty. Late-flowering, tall and upright, very stiff stem carries flowers high where they will not get soiled. A splendid pure white pompom.

Wm. Sobey. Early-flowering, medium height; flowers are aster-like and a fine, clear yellow. Very hardy.

Zelia. Midseason and rather tall with old-fashioned large orange flowers produced in quantity. A splendid outdoor variety.

12 Favorite Sorts

Price, three for 85c; doz., $2.50; 100, $15.00.

Over a period of years, we have kept a record of the Chrysanthemums most often selected by customers who visited our grounds while they were in bloom. This selection we consider very valuable and fine as these sorts have given best results over a long period.

The varieties are as follows:

<table>
<thead>
<tr>
<th>Argenteuillais</th>
<th>Mrs. Phillips</th>
<th>Mitzi</th>
</tr>
</thead>
<tbody>
<tr>
<td>Carrie</td>
<td>Oconto</td>
<td>Mrs. F. H. Bergen</td>
</tr>
<tr>
<td>Chief</td>
<td>October Gold</td>
<td>Bronze Button</td>
</tr>
<tr>
<td>Harvest Home</td>
<td></td>
<td>Snowdrop</td>
</tr>
</tbody>
</table>

We will furnish one each of these varieties with names for $5.00. Simply order "One collection of 12 favorite sorts." (No need to write all the names).

HARDY

GARDEN CHRYSANTHEMUMS

HARDY OLD-FASHIONED VARIETIES

We collected from old gardens some of the old-fashioned Chrysanthemums which are very hardy and which bloom in October and November, after all other outdoor flowers are gone. Often in bloom when the snow is on the ground; are very showy. 3 to 4 feet high. When in bloom are a perfect mass of flowers.

| Old-fashioned Hardy Pink      | $1.00         | $3.00 | $20.00 |
| Old-fashioned Hardy Red       | $.85          | 2.50  | 18.00  |
| Old-fashioned Hardy White     | $.85          | 2.50  | 18.00  |
| Old-fashioned Hardy Yellow    | 1.00          | 3.00  | 20.00  |

(The above varieties are supplied in strong, field-grown plants).

CHRYSANTHEMUM MAXIMUM - Shasta Daisy

The improved varieties of Marguerite, all allied to the Shasta Daisy that adorns our fields in the Spring, are among the most useful of our garden flowers. Not only have these flowers been greatly improved in size and form, but there are now early and late blooming varieties which give a succession of long-stemmed flowers so available for decoration during four months of the year. Glory of Wayside is a variety worthy of attention, and Etoile d’Or is robust and free flowering. Mrs. C. Dowthian Bell has enormous flowers with strong stems.

| Alaska          | Handsome plant, with large, glittering white blossoms in June and July | $0.85 | $2.50 | $18.00 |
| Etoile d’Or     | Another of the large-flowered English type, producing the largest and best flowers of any we have | 1.55  | 3.75  | 27.50  |
| Glory of Wayside| Abundant small flowers and blooms early in May; excellent for rock garden | 1.55  | 3.75  | 27.50  |
| Mrs. C. Dowthian Bell | Very large, perfectly formed flowers. Continuous bloomer | 1.55 | 3.75  | 27.50  |
| Sutton’s May Queen | Not one of the largest, but one of the earliest; similar to the Hartje & Elder Daisy but with a better stem | 1.00 | 3.00  | 20.00  |
### Chrysanthemum Leucanthemum and Species

**Arcticum** (The Arctic Daisy). Among Fall-flowering perennials this is a perfect gem. It forms an attractive rosette-like clump of pretty dark green foliage, and in September multitudes of flower stems appear, terminated by pure white flowers 2 to 2½ inches in diameter. These begin to develop during the last week in September, and continue in good condition throughout October, and frequently into November.

</tbody>
</table>

**Leucanthemum flore pleno** (Double white Shasta Daisy). Flowers double, pure white, of medium size, excellent for cutting; each plant produces from 30 to 50 flowers; perfectly hardy without any protection. May and June flowering.

| 35c | 2.50 | 18.00 |

**Uliginosum** (syn. Pyrethrum). Giant Daisy. Grows 3 to 4 feet high, covered with large, white, daisy-like flowers from June to September.

| 1.00 | 3.00 | 20.00 |

**Zawadsky.** A dwarf growing midsummer-flowering Daisy with pale pink flowers. Good for front or border.

| 1.40 | 4.00 | 30.00 |

### CLEMATIS, DWARF (Shrubby).

**Davidiana.** A most desirable variety, with fresh, bright green foliage and tubular bell-shaped flowers of deep lavender-blue during August and September; deliciously fragrant. 2½ feet.

| 1.35 | 3.75 | 27.50 |

**Integrifolia coerulea.** A good border plant, growing from 1½ to 2 feet high, producing its small but interesting porcelain blue flowers from June to August.

| 1.35 | 3.75 | 27.50 |

**Recta.** Grows from 2 to 3 feet high, and produces fragrant, pure white flowers in very large, showy clusters during June and July.

| 1.40 | 4.00 | 30.00 |

### CLEMATIS, CLIMBING VARIETIES (See Vines, page 57).

### COTONEASTER (See page 59).

### COREOPSIS (Tickseed).

**Grandiflora.** An improved variety with large, bright yellow flowers; one of the best hardy plants. Fine for cut flowers all Summer long.

| .75 | 2.00 | 15.00 |

### CORYDALIS (Fumitory).

Ornamental, early-flowering plants, especially useful for shady positions but requiring good drainage.

### CONVALLARIA (Lily-of-the-Valley).

**Majalis.** This popular and fragrant subject repays for being well treated. Grand for massing near shrubs or along shaded borders.

| 2.00 | 6.00 | 50.00 |

**Clumps (in Fall only).**

| 2.00 | 6.00 | 50.00 |

**Imported Pips (Berlin strain).**

| .50 | 1.50 | 10.00 |

### CORONILLA (Crown Vetch).

**Varia.** A strong creeper; good for covering rough banks; showy heads of pink and white, pea-shaped flowers. 1 to 2 feet. June-August.

| 1.10 | 3.25 | 22.50 |

### CODONOPSIS.

**Ovata.** Twining in habit; 1½ to 2 feet high; pale blue flowers; needs protection in Winter.

| 1.35 | 3.75 | 22.50 |

### CRUCIANELLA (Crosswort).

**Stylosa.** Early-flowering, hardy perennial, suitable for rock work; bright purple, bell-shaped flowers. Height 6 inches.

| .85 | 2.50 | 18.00 |
The Wayside Gardens Company, Mentor, Ohio

**CYPRIPEDIOUM (Lady’s Slipper).**
Hardy orchids that thrive in a moist, peaty soil, in shade or partial shade; flowers are very interesting with their odd shapes and uncommon colors and markings.

**DELPHINIUM - Larkspur**
English Delphiniums are the most beautiful hardy plants in cultivation, for they have such an immense variety of beauty and increase in size, in beauty, and often in quantity, year after year.

The culture of Delphiniums is exceedingly simple. The soil must be a rich, friable loam, which suits them finely; but any soil, even hot and sandy, if well watered and manured, will give excellent results. A succession of flowers may be expected from Spring to early Autumn, especially if the spikes which have done flowering early, be cut down to the ground; fresh growth will then be produced which will give blossoms. Coal ashes strewn over the crowns will protect the plants from slugs through the Winter and Spring.

**Choicest Wayside Gardens Hybrids**
Here offered are the newest, the best and the finest to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among these new hybrids are flowers of huge size in both single and double forms. This strain has been raised from seed saved from the finest named kinds in creation. Visitors at our nursery proclaim them the best they have ever seen. Those who wish to perfect their already much prized borders cannot afford to overlook these wonderful hybrids, ree for $2.00; doz., $5.50; 100, $45.00.

**Gold Medal Hybrids**
They are made up from the following strains: Blackmore & Langdon’s, Watkins’, Samuel’s, Kelway’s, and Vanderbilt’s. All familiar with Delphiniums know that these firms are careful growers and well known specialists.

**Belladonna.** They are our best blue cut flowers, are perfectly hardy and established plants produce a number of spikes, giving three crops during the season. They are in demand by every florist for decorating the light blue Belladonna combining especially well with other flowers. The two-and-three-year old plants of Belladonna can be forced in the greenhouse to great advantage.

DIANTHUS - Pinks

**HYBRID GARDEN PINKS**

Without the spicy fragrance of the Hardy Pinks a garden is incomplete. Their perfect form and rich coloring make them great favorites for edging flower beds, garden walks and drives.

**DIANTHUS ALLWOODI**

(New Perpetual-Flowering Hardy Pink)

This is a most important addition to our list of perpetual plants. They are perfectly hardy and flower continuously from early Spring until late in Autumn; the flowers are much more substantial and larger than the old type of Hardy Pinks, and are borne on long stems suitable for cutting; deliciously clove scented. All good, thrifty, young plants.

Dianthus Species

Suitable for dry rockeries, dry walls or any other hot, dry, sunny spot. Almost all Pinks are of the easiest culture and will thrive in any well drained soil and sunny position.

**Alpinus Allwoodi.** New perpetual-flowering type. This is one of the loveliest of all rockery Pinks, with glossy leaves and large flowers of brilliant rose, produced during June and July. It thrives best in loam with some lime added and perhaps a little shade during the hottest part of the Summer. A gem for the rock garden. 6 inches

DIGITALIS (Foxglove).
For stately and picturesque beauty it is not to be surpassed, and planted in masses in the garden among shrubs or naturalized on the edge of woods, in the orchards or along brooks, it is extremely effective and satisfactory. It is a biennial, but, as it renews itself from self-sown seed, it may be treated as a perennial.

Giant Shirley Foxglove. They are a genuine "Shirley" production of extraordinary size and vigor, growing 6 to 8 feet tall. The flower heads are over 3 feet long, crowded with big, bell-shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted with crimson or chocolate.

Ambigua or grandiflora. 2 to 3 feet, June and July. A hardy plant, with yellowish flowers, marked with brown. Effective in groups in wild garden...

Gloxiniaefiora. 3 to 4 feet. June and July. A popular variety, deep purple. Robust habit...

Gloxiniaefiora rosea. 3 to 4 feet; June and July; tall spikes of rose-pink flowers...

Gloxiniaefiora alba. 2 feet. June and July. The white-flowered Foxglove...

Gloxiniaefiora, Mixed Colors. Fine new strain...

Isabellina. Mr. Perry of England claims this to be the best yellow yet introduced...

DODECATHEON.
Mondia (Shooting Star). Native. A pretty, smooth perennial, with rose colored or sometimes white flowers in May or June. This is sometimes called "American Cyclamen." It thrives in rich, moist woods, or in the open border...

DORONICUM (Leopardbane).
Caucasicum. Large, bright yellow flowers; one of the most effective early Spring-flowering perennials. Effective as a single plant, or in a hardy border. It is a splendid flower for cutting, as it carries well and stands a long time in water. They succeed well everywhere...

DRABA (Whitlow Grass).
One of the important Spring-flowering plants for the rockery. Very dwarfs and compact with numerous small flowers in early Spring. They require an open soil and sunny position.

Bruniaefolia. A very hardy species from the Arctic regions. Produces a profusion of yellow flowers from March to May. Fine for rock garden...

DRACOCEPHALUM (Dragonhead).
Very showy border plants when in flower. Hardy. Delight in a cool situation.

Ruytschianum japonicum. Flowers white; central lobe of corolla with a blue border and white spots, might be called a blue Physostegia. 2 feet...

DRYS (Mountain Avens).
Shrubby plants for the rock garden, having oak-like leaves and branching stems. They can be grown in any good, stony soil, in full sun, and should be left undisturbed as long as possible.

Octopetala. Very choice sub-shrub for the Alpine garden. Forms flat carpets of deep green foliage and when well established, bears immense anemone-like blossoms of white. Very choice...

ECHINACEA (Coneflower).
(See Rudbeckia purpurea).

ECHINOPS (Globe Thistle).
Ritro. Interesting and showy thistle-like plants with globular heads of deep metallic blue flowers, which can be dried and remain attractive for a long time. 2 to 3 feet...

Humile cyanea. Grows three to four feet high and is a striking plant in the hardy border: spiny foliage with large, blue heads which are splendid as cut flowers or dried for Winter bouquets...

EDELWEISS (See Leontopodium).
The Wayside Gardens Company, Mentor, Ohio

EDRAIANTHUS (Wahlenbergia).

Dalmaticus. Low border or rock plant about 3 to 4 inches high, producing blue flowers not unlike the Platycodon; this plant is very rare. Three Doz. 100 $1.75 $5.00 $40.00

EPIGAEA.

Repen (Trailing Arbutus; Mayflower). Likes acid soil, therefore plant in some place where lime will not hurt it. Strong plants. 1.40 4.00 30.00

EPILOBIUM (Willow Herb).

Angustifolium. White flowers; very showy among shrubbery. 3 to 4 feet. June-August. 1.10 3.25 22.50 Rosmarinifolium (Dodonali). Similar to the above, with red flowers. Both kinds are good for cutting. Three Doz. 100 1.10 3.25 22.50

EPIMEDIUM (Barren-wort; Bishop's Hat).

Interesting plants with hard, almost evergreen leaves; excellent for shady places in border and rock garden; fine plant for edging in shade.

Sulphureum. A dwarf-growing plant suitable for a shady position in the rock garden or edge of border, with leathery, bronzy foliage and panicles of small sulphur-yellow flowers in May. $1.75 $5.00 $40.00 Violaceum. Similar to the above, with reddish violet flowers in May. 1.75 5.00 40.00

ERIANTHUS (Plume Grass).

(See Grasses).

EREMURUS.

A complete collection of these is offered in our import bulb catalog. Prices and list of varieties will be sent on request.

ERIGERON (Fleabane).

A very effective genus of Michaelmas Daisy-like plants usually with pink and purple flowers. They flourish in any garden soil, are indispensable for groups and flower borders, and are excellent for cutting. June to August.

Coulteri. Spreading masses of pure white flowers; very effective. Three Doz. 100 $0.85 $2.50 $18.00 Speciosus. 2 feet. June and July. Large, handsome blue flowers, violet tinted and yellow centers; fine for cutting. .85 2.50 18.00

ERINUS.

Alpinus roseus. Pretty rosettes of foliage and racemes of rosy purple flowers. A first rate rock plant and also invaluable for establishing on old walls or between steps. 4 inches. May-June. 1.20 3.50 25.00 Alpinus albus. White form of the above. 1.20 3.50 25.00

ERODIUM (Heron's Bill).

Very choice and valuable race of plants belonging to the Geranium family. Prefer light, rich soil and sunny position. Perfectly hardy.

Macradenum. Smooth, green foliage, so finely cut it has a lacy appearance. Small pink blossoms, streaked with black. Three Doz. 100 $1.75 $5.00 $40.00 Romannum. Silvery foliage with leaves simply cut. The flower stems are about six inches high, with heads of about six bright pink blossoms. 1.75 5.00 40.00

ERYNGIUM (Sea Holly).

Finely cut, spiny foliage and thistle-like heads of flowers of a beautiful steel blue. Very decorative in the hardy border, and useful for dry bouquets in Winter.

Amethystinum (syn. oliverianum). The true blue Thistle, with amethyst stems and bracts. Three Doz. 100 $1.35 $3.75 $27.50

Glaucum roseum. Branching heads of steel-blue flowers; stems and bracts of a glistening metallic sheen. .85 2.50 18.00

Page Twenty-two
ERYSIMUM (Hedge Mustard).

These plants do well in the front row of a border and on dry banks. They like full exposure to sunlight, and in the Spring months are completely covered with bright flowers.

Pulchellum (Fairy Wallflower). Dwarf plant with sulphur-yellow flowers. 6 inches high, good rock plant $1.00 $3.00 $20.00

EULALIA (See Grass).

EUPATORIUM (Hardy Ageratum).

Ageratoides (Thoroughwort). A useful border plant of strong, free growth, 3 to 3½ feet high, with minute white flamed and dense heads; splendid for cutting. August and September 1.00 3.00 20.00

Goeleatum. A pretty hardy plant, with light purple flowers similar to the ageratum; in flower from August until frost. 12 to 24 inches. Good cut flower 1.00 3.00 20.00

EUPHORBIA (Milkwort).

Corolla (Flowering Spurge). Showy and useful native plant growing about 18 inches high, and bearing from June till August umbels of pure white flowers with a small green eye 1.00 3.00 20.00

Myrsinites. A pretty prostrate species, bluish foliage, with crowded heads of yellow flowers 1.00 3.00 20.00

Polychroma (Epithymoides). A beautiful formal plant growing one foot high, forming a hemispherical clump covered with yellow flowers in May and June. Excellent border or rock plant 1.40 4.00 30.00

FERNS

HARDY VARIETIES

The cultivation of Hardy Ferns is remarkably simple. All they want is a light alluvial soil, a little loam and peat or leaf-mould to keep the soil light and open, plenty of moisture, position varying from partial to deep shade. The aspleniums and many others will grow on walls, chinks of rocks, etc. Many will revel in full sunshine in any ordinary border.

Adiantum Pedatum. (Hardy). Maidenhair Fern. Most attractive of our native Ferns; black stems with delicate green fronds $1.00 $3.00 $20.00

Asplundum acrostichoides (Wood Fern). (Polystichum). An evergreen species with deep green, divided fronds. Should be planted in a shady position. 12 inches 1.00 3.00 20.00

Asplundum spinulosum (Dryopteris spinulosa). Spinulosa Wood Fern. An evergreen variety that requires rich, well-drained soil. 18 to 24 inches 1.00 3.00 20.00

Asplenium silic-fœminum (Lady Fern). Grows in shade or sun. Large and handsome 1.10 3.25 22.50

Dicksonia punctilobula (Dennstaedtia punctilobula). Hay-scented or Goosamer Fern. Grows well in either sun or shade. 18 to 24 inches. Very erect with broad fronds, of a soft, woolly texture 1.00 3.00 20.00

Osmunda Sensiblis (Sensitive Fern). Requires wet places either in sun or shade. 12 inches 1.00 3.00 20.00

Osmunda cinnamonosa (Cinnamon Fern). Erect, drooping at tips, with bright cinnamon colored spores at end of fronds, a very conspicuous variety 1.10 3.25 22.50

Osmunda Clasitana (Interrupta). A distinct and very beautiful native species; foliage velvety green, with prominent brown spores in middle of fronds 1.10 3.25 22.50

Osmunda regalis (The Royal Fern). Wonderful in damp, marshy places, where its rich yellowish green foliage and golden stems make very striking subjects 1.10 3.25 22.50

Struthiopteris germanica (The Ostrich Fern). A very graceful species with finely cut pinnae, growing 2 to 3 feet high 1.10 3.25 22.50

Woodia obtusa. Large rosettes of curious hoary foliage. Fronds one foot in length; very free growing 1.10 3.25 22.50
FEVERFEW (Matricaria).

Arthur Gem. A most useful border plant and valuable Summer cut flower, with large, double, white flowers. June until October. 18 to 24 inches $0.85 $2.50 $18.00

Golden Ball. Dwarf yellow form of above. .85 2.50 18.00

FOXGLOVE (See Digitalis).

FUMARIA (See Corydalis).

FUNKIA (Hosta; Plantain Lily).

The Plantain Lilies are among the easiest plants to manage; their broad, massive foliage makes them attractive subjects for the border even when not in flower. They succeed equally well in sun or shade.

Three Doz. 100

Coerulea lanceolata. Broad leaves; blue flowers in July to August $1.10 $3.25 $22.50

Glauca. A very pretty Japanese species, with distinctive bluish foliage 1.40 4.00 30.00

Subcordata grandiflora. Very large, pure white, lily-shaped, fragrant flowers in August and September 1.40 4.00 30.00

Variegata. Variegated foliage; blue flowers. Beautiful edging plant 1.00 3.00 20.00

GAILLARDIA - Blanket Flower

Improved English Strain. We consider the Gaillardia one of the most desirable hardy plants in cultivation, and our strain of these brilliant flowered plants to be the finest extant. Though such an ornamental addition to the herbaceous border, the perennial Gaillardia is content with extremely simple treatment. Dig the soil deeply and enrich with well-rotted manure. We recommend the Gaillardia for bedding purposes as well as for borders. Everyone will have noticed how grandly Gaillardias have thriven through droughts; they seem hardly to need water. The gay blossoms are obtainable in perpetual profusion from June to November and the greater the drought and scarcity of other flowers the more the utility of the perennial Gaillardia is demonstrated. No more beautiful and brilliant sight can be imagined than a large bed of Gaillardias, with their profusion of highly colored flowers of all shades. Some of the varieties of our improved strain measure fully 6 inches in diameter.

Three Doz. 100

Giant Hybrids. Introduced from England some few years ago. Large flowers; very 4ne strain $0.85 $2.50 $18.00

GALEGA (Goat's Rue).

Showy plants of the easiest culture and very useful in the hardy border. They form very bushy plants with attractive foliage and pea-shaped flowers. Fine for cutting.

Three Doz. 100

Officinalis nana rosea flore pleno. Very fine double pink variety; rather rare $1.10 $3.25 $22.50

GENTIANA (Blue Gentian).

Andrewsi. One of the most fascinating native plants. The flowers, which are tightly closed, are borne at the top of a stem from 6 to 8 inches long, and are an intense deep blue. Blooms best in moist places. July and October 1.00 3.00 20.00

Thibetica. Very hardy variety; creamy white; dwarf in habit 1.40 4.00 30.00

GENISTA.

Sagittalis (Dwarf Prostrate Broom). Stems curiously winged like an arrow. Heads of yellow flowers, 6 inches high, flowering in June 1.40 4.00 30.00
GERANIUM (Crane's Bill).

GRASSES, Hardy Ornamental

The ornamental Grasses can be used with telling effect in borders, large beds, or by the margin of ponds and inlakes. They are often used with small shrubs and medium sized trees in larger groups. The Eulalias planted singly on lawns where the soil is deep and rich, take care of themselves and grow very rapidly into large specimens.

**HELIANTHUS (Hardy Sunflower).**

The perennial Sunflower should always be planted in masses, where they may have plenty of room, against backgrounds of shrubbery, or naturalized in wild gardens or woodlands. They produce a grand effect impossible to describe. In combination with hardy Asters, where broad color effects are wanted in late Summer, they have few equals. They are profuse bloomers, producing an unlimited supply of flowers for decoration.

HEMEROCALLIS (Yellow Day Lily).

Hemerocallis have long been favorites in our gardens, and are always included in any list of the most popular Hardy Plants. All of the varieties of Hemerocallis are desirable and beautiful. The tall, graceful, grass-like foliage is very handsome and sets off the charming lily-like flowers very effectively. They look particularly well naturalized along streams or on moist banks, and will thrive most luxuriantly in shade.

INCARVILLEA DELAVAYI.
HOLLYHOCKS - Althea Rosea

The Hollyhock is an old garden favorite, full of sentiment and association with a distant past. They require a deep, rich soil and a sunny corner, but will repay by their gorgeous and lavish bloom all the attention bestowed upon them. Painters choose Hollyhocks as subjects for floral paintings oftener than any other flower. We suppose the reason for this is that artists have a keener appreciation of beauty than other people, and recall that the common single Hollyhock is one of the most stately, picturesque and beautiful plants in the world. We know of patches that have not been cultivated or disturbed in any way for twenty years. Some people think double Hollyhocks are more beautiful than single. They are mistaken, although the doubles are beautiful, but the singles are just as handsome. Hollyhocks planted in the Fall will bloom the following Summer.

DOUBLE. Separate colors, as follows:
- Bright Rose $0.85
- Maroon $0.85
- Newport Pink $0.85
- Red $0.85
- White $0.85
- Yellow $0.85

The above shades in mixed colors, all at $0.85

New Allegheny. Immense semi-double flowers, with fringed edges. $1.40

SINGLE. Mixed.

Three Doz. 100

HYACINTHUS CANDICANS (Galtonia). (See Bulbs, page 71).

HYPERICUM (St. John's Wort).

Calycinum. Similar to the other varieties, except that it makes underground runners, which, when they come up, produce a beautiful carpet of green covered with large yellow blossoms. Is really a ground cover; hardest of all: excellent variety 1.40 4.00 30.00

Henryi. The same as Moserianum, though slightly more upright in growth and much hardier and better suited for cold climates. 1.40 4.00 30.00

Moserianum. A most desirable border plant, of free and graceful habit, producing long, slender stems, drooping, apparently from the weight of the flowers and buds, though the flowers face so none of their beauty is lost. Color a rich golden yellow, and blooms continuously the entire season. 2 feet 1.00 3.00 20.00

Beptans. Distinct trailing species from the Himalayas. Very large, soft, yellow flowers, tingled reddish. Late Summer and Autumn. 44 inch. Wonderful rock plant. 1.60 4.75 35.00

IBERIS (Hardy Candytuft).

Most desirable dwarf plants, 8 to 10 inches, with evergreen foliage, which is completely hidden with dense heads of flowers early in the Spring. Three Doz. 100

Little Gem. Dwarf, pure white flowers in June. Glaucescent blue foliage. Splendid rock or edging plant; perfectly hardy. 6 inches $1.40 $4.00 $30.00

Sempervirens. Very dwarf and covered with a sheet of white, a particularly fine rock plant. 1-year-old plants 1.00 3.00 20.00

2-year-old clumps 1.20 3.50 25.00

INULA (Fleabane).

Golden Beauty. Free-flowering border plants with yellow flowers .55 2.50 18.00

INCARVILLEA (Hardy Gloxinia).

Large, rich rose, Begonia-like flowers with deep yellow throats, produced all through the Summer. A hardy perennial which succeeds well in borders and is equally valuable for greenhouse decoration. Height 18 inches. Three Doz. 100

Delavayi. Rose-pink flowers produced in large trusses $1.35 $3.75 $27.50
The Iris is one of the finest, if not the finest, of our hardy plants. Not particular as to soil or location, but asking only that the sun shine on it. It throws up spikes of bloom that are marvelous in their delicacy of structure and the colorings which are exquisitely dainty are wonderful in their blendings and variety.

**Iris Germanica** (German or Flag Iris)

- **Ambassadeur** (Vilm., 1920). S. a fascinating smoky velvety purple color; F. velvety purple-maroon; beards and style yellow. A magnificent and regal flower of great substance. Each, 60c.
- **Archeveque** (Vilmorin, 1911). Certificate, R. H. S., 1916. S. deep purple-violet; F. deep violet. Each, $1.00 $2.00 $20.00
- **Ben Bow** (Bliss, 1917). A deep violet-blue self. Large flowers on tall, well-developed stems. Each, 50c.
- **Brooksiana**. Charming flowers of neat form, self-colored, delicate rose-ille, without veining. Each, 60c.
- **Cecil Minturn** (New). Soft Cattleya rose. A beautiful flower with broad petals, gracefully waved and crinkled; one of the finest Irises for size and extreme beauty. Each, $1.00.
- **Crusader** (Foster, 1913). One of the finest lavender-blue varieties, the falls being a deeper tone than the standards. A tall, strong grower with very large flowers of good substance. Each, 50c.
- **Dominion** (Bliss, 1917). Perhaps the most famous of all Irises. An excellent breeder whose seedlings are among the finest novelties, S. Dauphin's blue or light bluish violet, large, erectly held, well-developed; F. of exceptional substance, deep rich indigo purple. Very velvety texture. Each, $10.00.
- **Golden Imperial**. The greatest golden yellow Iris known; might be called the Golden Pallida Dalmatica. Limited stock. Each, $10.00.
- **Helge**. Lemon-yellow with pearl shading. Each, 50c.
- **Isoline**. Round standards of pale pinkish buff, strongly flushed mauve; the sharply reflexed falls are Chinese violet with russet tints at the sides; bewildering shades but most attractive. Each, 50c.
- **Jeanne d'Arc** (Verdier, 1907). S. very large and ruffled, somewhat spreading, white, delicately penciled lilac; F. white edged lilac at base. Each, 50c.
- **La Neige** (Verdier, 1912). A creamy white self with flaring falls. Each, 60c.
- **Lord of June**. S. lavender-blue; F. rich violet-purple. A magnificent variety of gigantic size. Each, $1.00.
IRIS GERMANICA—Continued.

Three Doz. 100

Mme. Chobaut (Denis, 1916). 36 inches. A clover-scented Plicata type. Prussian red with light brownish veins, on a pale chalked show-ground. One of the most beautiful of all Iris. Each, $1.00

Madame Chereau. White, elegantly frilled with a wide border of clear blue $0.85 2.50 18.00

Monsignor. It possesses a distinctive and pleasing shape, rich coloring and a dark outline to the segments for emphasis. Standards violet; falls heavily veined purple, leaving a border of the violet; late to flower. $0.85 2.50 18.00

Mrs. Alan Gray. A delicate lavender-pink that appears pinker in the shadow, a variety of rather early bloom. $0.85 2.50 18.00

Mrs. Walter Brewster (Vilm. 1922). A good light toned semi-bicolor. S. Lavender-blue; F. aniline blue. Vigorous and free. Each, 75c

Midnight. A rich, deep purple, the finest in this color; a fine cut flower. $0.85 2.50 18.00

Mother of Pearl. Mr. E. B. Williamson, originator of Lent. A. Williamson, America's highest rated Iris, says, "Mother of Pearl standards and falls pale bluish lavender with a faint creamy undertone. Large flowers of exceptional substance and perfect form on well branched stems. Vigorous in growth and producing its wonderful flowers freely". Each, $1.00

Moliere (Vilm. 1920). S. violet-blue; F. deep rich velvety violet, veined brown. Beard yellow. Flower darker, but as good as Magnifica though not so tall. 30 in. $0.85 2.50 18.00

Nebelungen (Goos & Koenemann, 1910). S. fawn and yellow: F. violet-purple on bronze. Very large flowers; strong, vigorous growth. $0.85 2.50 18.00

Nuee d'Orage (Verdier, 1905). (Syn., Storm Cloud). Cert., N. H. F., 1905. S. slaty gray; F. bronze and purple. Large flowers. 24 inches $0.85 2.50 18.00

Orifamme (Vilmorin, 1904). Cert., N. H. F., 1905; A. M., R. H. S., 1916. S. light blue; F. rich violet-purple. Immense, handsome flowers of Ames form. 30 inches $0.85 2.50 18.00

Pallida Dalmatica, Princess Beatrice. This is the true type of Pallida Dalmatica and still one of the most attractive and satisfactory all around varieties, with flowers of large size; both standards and falls of a clear lavender-blue shading to a pale silvery blue at the base and sweetly scented. It is of strong vigorous growth over three feet high with unusually heavy glaucous foliage. Each, $1.20 3.50 25.00

Pallida Dalmatica, folius variegatifs. This beautiful variety is conspicuous on account of its striking variegated foliage, which is of a glaucous green with broad bands of creamy yellow, every leaf being well marked; it is of free growth, attains a height of 2 feet and is very attractive, even when not in flower; its blooms are of a clear lavender-blue the same as its parent. Each, $1.00

Princess Victoria Louise (Goos & Koenemann, 1910). S. sulphur-yellow; F. rich plum, banded cream. 30 inches $0.85 2.50 18.00

Prospero (Yeld, 1920). A large blended violet bicolor with smoothly rounded falls. In a class with Asia, which it resembles in shape. S. pale lavender, flushed yellow at base; F. deep red-purple with light shading at margin. 4 ft. Each, $1.00.
IRIS - Species

Some very interesting sorts are here listed and described; many of them splendid for naturalizing and large, permanent plantings.

IRIS GERMANICA—Continued.

Queen Caterina (Sturt.). A midseason variety of a beautiful clear orchid-purple veined with brilliant gold; the whole being further enhanced with a bright orange beard, producing at least twice as many flowers as Pallida Dalmatica ....$1.20 $3.50 $25.00

Rhein Nixe (Goos & Koenemann, 1913). A. M. R. H. S., 1916; S. white; F. violet-blue with white edge. Tall and large. Very fine. Strong grower. 30 inches .85 2.50 18.00

Storm Cloud. (See Nuee d’Orage).

Seminole (Farr, 1920). S. dark violet-rose; F. rich velvety crimson, brilliant orange beard. We consider this the finest of the red toned Iris we have seen. Rich in color and a wonderful variety. 75c each.

Shekinah (Sturt.). A delightful shade of pale yellow shading to amber in the throat, with a lemon colored beard. This is a true yellow Pallida, and the first of the type. A most uncommon and very handsome variety ..........Each, 50c.

Sherwin-Wright. In this we have a good vigorous growing, free-flowering, golden yellow Iris Germanica. The plants grow about two feet high; the flowers, which are produced in lavish profusion, are of splendid texture and stand well above the foliage, and are of a rich golden yellow without markings or shadings; the best yellow ................. 1.00 3.00 20.00

Souvenir de Mme. Gandichan (Millet, 1914). A rich, deep velvety purple Iris; of fine shape and finish. Tall, early, and very distinct. One of the most striking and remarkable of all. 42 inches. Each, $1.50

IRIS PUMILA

These beautiful little Irises do not grow over 4 inches high, and bloom in April and May. They are fine for bordering flower beds or planting in front of the tall Irises.

Three Doz. 100

Sambo. Dark violet-blue .................$0.85 $2.50 $18.00

Excelsa. A splendid pale lemon-yellow .1.10 3.25 22.50

Fairy. Pale blue, very dwarf .............. 1.20 3.50 25.00

Schneecuppe. A large, showy, pure white .85 2.50 18.00

IRIS SIBIRICA (Siberian Iris).

Vigorous, free-flowering varieties of the easiest culture; fine for the flower border, for naturalizing and for waterside planting.

Orientalis White. Similar to the Sibirica varieties but not so tall .................$0.85 $2.50 $18.00

Perry’s Blue. Very large, clear blue flowers on stout, stiff stems, a vigorous free grower and very free-flowering, one of the best for cutting. Each, $1.00 10.00

Snow Queen. An exquisite new, hardy Iris; the flowers are of a snowy whiteness, large and well formed, produced in great abundance; foliage light and graceful. A gem for flower border or waterside. 3 feet high ................. .85 2.50 18.00

Superba. Large, violet-blue flowers; handsome foliage. Fine border plant and a grand subject for planting near water where it blooms profusely ................. .85 2.50 18.00
The Wayside Gardens Company, Mentor, Ohio

IRIS KAEMPFERI - Japanese Iris

The magnificent Iris Kaempferi belong to the Apogons, and a field of them in bloom is a most gorgeous sight. Seeing them for the first time, one cannot withhold an exclamation of surprise, and having once seen can never forget their striking beauty.

Late plantings should be protected by a light covering of straw or leaves after the ground is permanently frozen to prevent roots from being heaved out of ground by frost. Plant in spring, or April and May.

Albatross. Beautiful pure white, double-flowered. The finest of all double white sorts. Large, strong, pure flowers with rosy red edges in the center ... $4.00 $5.00

America. Single, pure white with rosy red edges. A very rare and unusual combination of colors ... $5.00 each. 15.00

Azure. Double, Immense flower, exquisite-ly waved; mauve-blue, lighter halo surrounding yellow blotch at base of petal. 1.40 4.00 30.00

Catherine Parry. Double, Blue, overlaid rosy red; high tufts in center almost triple. ... 1.40 4.00 30.00

Clio. Single, Petunia-violet; conspicuous yellow center surrounded with blue cast. Large ... 2.00 7.00

Colonnia. Double blue with pure white veins; a striking variety of unusual strength. ... 1.40 4.00 30.00

Doris Childs. Double. Pearl-white deeply veined rosy plum. Center petals deep plum edged white. 2.00 7.00

Dominator. Single. Rich indigo-blue with narrow white stripes and flat center. One of the finest and richest colors. 1.40 4.00 30.00

Eleanor Parry. Double. Claret-red, flamed white and blue. Compact, medium sized flowers. ... 1.40 4.00 30.00

Fascination. Double. Blue, lightly veined pink. Large. Beautiful variety. ... 1.40 4.00 30.00

Gold Bound. A fine double, pure white; creamy glow at the gold-banded center. ... 1.40 4.00 30.00

Indo. Single. Light blue shaded lighter, wavy petals of great size; color dark rich blue, slightly veined. 1.40 4.00 30.00

La Favorite. Large, fine, white freely veined blue, and a rich purple center. ... 1.40 4.00 30.00

La Toscra. Immense, double white flowers with blue shadings. A very beautiful, strong growing variety. ...3.00 each. 9.00

Matchless. Large, double white flowers heavily veined blue with rich blue blotch around yellow center. $4.00 each. 12.00

Minerva. Single. Pink tinted rose. 1.40 4.00 30.00

Mount Hood. Double. Light blue shaded orange. Bright orange center. ... 1.40 4.00 30.00

Olympia. Large, single white flowers beautifully veined blue, center petals delicate mauve and blue. 2.00 7.00

Patrocle. Single. Superb dark reddish violet. ... 1.40 4.00 30.00

Purple and Gold. Double flowers; early and free blooming. Color rich violet-purple with white petaloids, tipped violet. Conspicuous golden throat extending outward in bluish white rays. ... 1.40 4.00 30.00

Pyramid. Double. Violet-purple veined white in center of each petal. ... 1.40 4.00 30.00

Red Riding Hood. A fine single amaranth, veined and suffused white. A color combination hard to find. ... 2.00 7.00

Rosalee Bulgaresa. Deep blue shading with age to light blue with white veins. A very early and free-flowering plant. ... 1.40 4.00 30.00

Shadow. Single. Self color; reddish purple. Very large and fine blossoms. ... 1.40 4.00 30.00

Woolson's White. A free-flowering, double white variety very similar to Gold Bound. Flowers larger and produced in greater numbers. Strong growing plant. ... 2.00 each. 6.00

Mixed Colors. Both single and double varieties. Splendid mixture of the choicest Japanese varieties. 1.00 3.00 20.00

We will supply one root each of any variety you may select at one-third the price of three.
**LACTUCA.**

*Perennis.* A charming little low-growing plant suitable for the border or rock garden; light blue flowers freely produced. 14 inches high $1.40 $4.00 $30.00

**LATHYRUS (Everlasting Sweet Pea).**

*Latifolius.* These Everlasting Peas are but little known in this country, but are great favorites in England. They are extremely showy and fine. Charming climbers for covering trellises, arbors, etc.

*Pink Beauty.* Large racemes of pleasing deep rose flowers $1.00 $2.00 $20.00

*Red.* The well known red Everlasting Pea. 1.00 3.00 20.00

*White Pearl.* A great improvement on the older white variety, the stems giving from 12 to 15 flowers each 1.00 3.00 20.00

**LAVANDULA (Lavender).**

*Nana.* A very fine new dwarf English introduction. Good for edging and planting between roses 1.20 3.50 25.00

*Vera.* This is the true Sweet Lavender; grows about 18 inches high; delightfully fragrant blue flowers in July and August 1.10 3.25 22.50

*Bowles’ Early.* A very fine strain of early flowering lavender, producing long spikes of flowers 1.20 3.50 25.00

**LILY-OF-THE-VALLEY (See Convallaria, page 17).**

**LINARIA (Toad Flax).**

*Cymbalaria* (Kenilworth Ivy, or Mother of Thousands). Lavender and purple. A charming, neat, hardy perennial trailing plant, suitable for rock work and wall gardens $1.00 $3.00 $20.00

**LINUM (Flax).**

*A* desirable plant for the border or rockery, growing 2 feet high, with light, graceful foliage and large flowers all Summer.

*Alpinum.* A rare species from the Dauphine, of prostrate growth with showers of pale blue blossoms throughout the Summer $1.40 $4.00 $30.00

*Flavum.* Fine variety with transparent, yellow blossoms .85 2.50 18.00

*Narbonnense.* Forms a spreading clump of attractive foliage with a profusion of azure-blue flowers with white eye. Very handsome for the rockery 1.00 3.00 20.00

*Perenne.* Very attractive, both in foliage and bloom. Flowers beautiful pale blue on slender, graceful stems .85 2.50 18.00

*Perenne alba.* White form of the above .85 2.50 18.00

*Viscosum.* Rather shrubby in growth, with small leaves and small blossoms of soft, lilac-rose. 12 inches to 18 inches 1.40 4.00 30.00

**LEONTOPODIUM (Edelweiss).**

*Alpinum.* A well known Alpine with pretty white leaves and small yellow flowers which are surrounded by starlike heads of leaves, clothed with a dense white, woolly substance. A splendid plant for the rock garden. 4 to 5 inches, June to August. Supplied in pots only 1.40 4.00 30.00

**LIATRIS (Blazing Star or Gay Feather).**

*Pycnostachya.* The popular name of this plant is Kansas Gay Feather. Nothing can be planted that will attract more attention on account of its unusual appearance; but it is beautiful as well as odd. It blooms in midsummer and throws up long, narrow spikes of rich purple flowers, which last a long time. A peculiarity of this plant is its great attraction for butterflies 1.00 3.00 20.00

*Spicata.* Similar to Pycnostachya, somewhat earlier in bloom and not quite as tall 1.40 4.00 30.00
Lilies
Hardy Garden Varieties

There is a notion that Lilies are "hard to grow." Some of the rarer species are, it is true; they not only stubbornly refuse to make themselves at home in the garden, unless conditions are precisely to their liking, but some of them cannot endure the northern Winter without the necessary covering of litter, which many other tender plants require. Unless one goes in for Lilies to the extent of making a hobby of them, however, these can all be left to the collector and there will be quite enough species remaining to give one a Lily season in the three months duration of which loveliness follows loveliness with breaks of only relatively brief length. We say species for the reason that the Lilies in cultivation show an exceptionally low percentage of horticultural varieties. Possibly because Nature made every species perfect to begin with, the hand of the hybridizer has been loath to endeavor to "paint the Lily," as it were.

DELIVERY—This depends upon the arrival of the bulbs from our foreign sources. Many get here too late for Autumn planting, thus necessitating carrying over the bulbs until Spring. Those marked (**) should be planted in the Fall only; those marked (*) may be planted in Spring or Fall, preferably the latter; all the others are for Spring delivery.

</table>
LILIES—Continued.

*Lilium Candidum. Plant with Delphiniums for a fine effect.

*Lilium Regale. A native Lily with deep red flowers. One of the finest for planting in shady places. Small, rich red flowers, spotted maroon. July. 3 to 4 feet

**Humboldtii magnum. Stout, erect stem, with whorls of leaves at regular intervals. Numerous drooping flowers borne in loose, triangular clusters of brilliant golden yellow, spotted with purple on the reflexed petals; showy; prefers deep, peaty soil, but will grow in any well drained soil, which must be deep, for the roots go straight down. It produces a splendid flowering plant. Height, 5 feet. Base-roots; fall planting; 4 inches deep; June-July flowering; extra strong bulbs

*Philadelpicum. A handsome native Lily with yellow, cup-shaped flowers, spotted maroon and shaded orange at ends of petals. Good for naturalizing. July. 3 feet. Large bulbs

*Pomponicu. A brilliant red Turk's Cap Lily. Much like Chalcedonicum, but with the heads of flowers rather more loosely arranged. June. 3 to 4 feet

*Regale or myriophylltun (The Regal Lily). It is absolutely hardy, and is excellent for forcing. It has been predicted that this will become the Easter Lily of the future, and being so hardy, may be grown at home. The flowers are white, slightly suffused with pink, with a beautiful shade of canary-yellow at the center, and extending part way up the trumpet. It is delightfully perfumed, reminding one of the Jasmine, and lacking the heavy, oppressive odor of most Lilies. Blooms out-of-doors early in July. Strong bulbs, 5 to 6 inches in circumference

*Regale or myriophylltun (The Regal Lily). It is absolutely hardy, and is excellent for forcing. It has been predicted that this will become the Easter Lily of the future, and being so hardy, may be grown at home. The flowers are white, slightly suffused with pink, with a beautiful shade of canary-yellow at the center, and extending part way up the trumpet. It is delightfully perfumed, reminding one of the Jasmine, and lacking the heavy, oppressive odor of most Lilies. Blooms out-of-doors early in July. Strong bulbs, 5 to 6 inches in circumference

*Fardalinum (Leopard Lily). Flowers reflexed, bright yellow at base, spotted brownish purple, remainder orange-scarlet. 3 to 4 feet. July and August.

Farryl. Distinct, beautiful; grows from 4 to 6 feet high and the slender stems bear several funnel-shaped flowers of soft yellow, with conspicuous brown anthers, delicately fragrant. A partially shaded place sheltered from winds, and moist, well drained peaty soil suits it well; easily cultivated but not very strong grower. Base-roots; fall planting; 4 inches deep. July flowering. Selected bulbs

*Philadelpicum. A handsome native Lily with yellow, cup-shaped flowers, spotted maroon and shaded orange at ends of petals. Good for naturalizing. July. 3 feet. Large bulbs

*Fomponicu. A brilliant red Turk's Cap Lily. Much like Chalcedonicum, but with the heads of flowers rather more loosely arranged. June. 3 to 4 feet

*Pomponicu. A brilliant red Turk's Cap Lily. Much like Chalcedonicum, but with the heads of flowers rather more loosely arranged. June. 3 to 4 feet

It is delightfully perfumed, reminding one of the Jasmine, and lacking the heavy, oppressive odor of most Lilies. Blooms out-of-doors early in July. Strong bulbs, 5 to 6 inches in circumference
Rubellum. Beautiful small Lily. The color varies from a deep rose-pink to almost white, with yellow anthers; very fragrant, small funnel-shaped flowers; grows 1 foot high. It does best in light soil.

Speciosum album. The Speciosum or Lan-cifolium are the most important of all the Japanese Lilies; always satisfactory. The variety here offered has large, white flowers of great substance, with a greenish band running through the center of each petal.

Speciosum magnificum. Magnificent large flowers of rich deep red.

Speciosum Melpomene. A darker shade of red and crimson markings than the preceding.

*Superbum. 3 to 4 feet. July. Flowers bright reddish orange, conspicuously spotted; easily grown and permanent.

Testaceum (Excelsium or Nan-keen Lily). This is one of the finest of all Lilies. The color is difficult to describe, being a shading of dull apricot with orange-yellow anthers. A most graceful Lily and a good companion to L. candidum. June-July. 5 feet. Extra large flowering bulbs; easily grown and permanent.

Thunbergianum (elegans). Very hardy, dwarf Lilies thriving in any garden and producing large, erect flowers of various shades of yellow, orange and red. All varieties grow from 1½ to 2 feet and bloom during June and July.

*Wallacei. A handsome Lily of a beautiful shade of the warmest apricot with rosy shading. August. 1½ to 2 feet.

*Washingtonianum. A beautiful Lily from California, with large, reflexed flowers, varying in color from light to a rich wine color, slightly spotted deep orange. This variety requires a moist but well drained situation. June-July. 3 to 5 feet. Extra large bulbs.
LITHOSPERMUM (Gromwell).

**Purpureum.** A woody plant, in appearance much like lavendula vera. Heads of beautiful pale blue and purple flowers. Should have a choice place in the rock garden in full and rich soil. Each, 75c.

LOBELIA (Indian Paintbrush).

Handsome border plants, thriving in any ordinary garden soil, but preferring a moist, deep loam. Season August till late September.

Cardinalis (Cardinal Flower). Rich, fiery cardinal flowers. Strong plants, often producing 10 to 18 spikes, 24 to 30 inches long. $1.00 $3.00 $20.00

Syphilitica (Great Blue Lobelia). Similar in growth to the last, but the flowers are blue, streaked with white. Plant in a moist place. Desirable for border of brook or lake. .85 2.50 18.00

LONICERA (Honeysuckle, see page 58).

LUPINUS - Lupines

The Lupines produce beautiful long spikes of pea-shaped flowers a foot long on stems three feet high. They are perfectly hardy but cannot endure drought, and must be planted in well prepared garden soil and kept watered in dry weather.

Wayside Gardens New Sweet-Scented Hybrids (Polyphyllus). A wonderful new strain that may be classed among the most beautiful of all hardy flowers. Colors are both rich and delicate in shades of blue, mauve, pink, etc., and the flowers are borne in long spikes that for size and beauty rival giant Snapdragons. The added novelty of being sweet scented, makes these one of the best garden plants we have ever distributed. $1.00 $3.00 $20.00

Polyphyllus (Hardy Lupin). Clear blue. 3 to 4 feet. June-September 1.00 2.00 20.00

Polyphyllus albus. A white variety 1.00 2.00 20.00

Polyphyllus roseus. A splendid new variety, with flowers of beautifully shaded rose 1.00 2.00 20.00

Polyphyllus, Mixed .85 2.50 18.00

Polyphyllus, Moerheimi. Pink 1.35 3.75 27.50

Polyphyllus, Rosy Morn. Deep pink 1.35 3.75 27.50

Polyphyllus, Sunshine. Yellow 1.35 3.75 27.50

Polyphyllus, May Princess. Deep violet-blue spikes 1.35 3.75 27.50

LYCHNIS (Campion).

A fine old-fashioned flower, bearing large heads of brilliantly colored flowers, that liven up the border during Summer and early Autumn.

Alpina. Dwarf, rose-pink . Three Doz. 100

Chalcedonica. Heads of vivid scarlet flowers, blooming a long time. One of the brightest plants in the hardy border. 3 feet 1.10 3.35 22.50

Haageana. 1 foot. June to August. Very showy, producing orange-red, scarlet or crimson flowers nearly 2 inches across. 1.00 2.00 20.00

Viscaria, flore pleno. A fine double variety; fine for cutting 1.10 3.25 22.50

Viscaria splendens. Brilliant red .85 2.50 18.00

Viscaria splendens alba. Flowering profusely in June and July; it is one of the best white flowers at that time of the year. 8 to 10 inches high; fine border plant .85 2.50 18.00

LYTHRUM (Purple Loosestrife).

Superbun roseum. Very showy; splendid for banks of streams and ponds .85 2.50 18.00
LYSIMACHIA (Loosestrife).

MYOSOTIS - Forget-me-not

Nearly everyone is familiar with the Forget-me-not which makes such beautiful pictures in the garden in early Spring. They are alike charming in the border, rock garden, or by the waterside. They all like shade and a fair amount of moisture; use them freely as a ground cover for your Tulip or other bulb beds.

NIEREMBERGIA (Cup Flower).

Three Doz. 100

BIUVULARIS. A charming dwarf creeping Alpine plant, bearing large, creamy white, cup-shaped flowers from June till September; most desirable plants for the rockery. Plant in Spring only $1.00 $3.00 $20.00

OENOTHERA (Evening Primrose).

Elegant for a sunny position in the border or on the rockery, blooming all Summer. Three Doz. 100

Fraseri. 1 foot. June to October. Flowers large, pale yellow. $0.85 $2.50 $18.00

Fruticosa major. 2 feet. June to September. A strong growing plant, forming a dense, bush-like specimen; flowers deep yellow, in profusion. 1.00 3.00 20.00

Missouriensis. 10 inches. June to August. A low species with prostrate, ascending branches; profuse bloomer. Solitary flowers, often 5 inches across. Good for rock garden or border. 1.00 3.00 20.00

Speciosa. Pure white flowers 3 inches across. 13 inches. 1.00 3.00 20.00

Youngii. 2 feet. June to August. A sturdy, stocky, large-leaved plant with firm, shiny foliage, numerous, bright lemon-yellow flowers. .85 2.50 18.00

OROBUS (Bitter Vetch).

Vernus. 1 foot. Bright blue and purple. May. $1.00 $3.00 $20.00

PAPAVER - Poppy

The proper planting season for Oriental Poppies is during the last of August, September and October. Roots planted at any other time we do not guarantee to live.

Oriental Poppies are the regal representatives of this popular genus, growing 3 to 3½ feet high, and far surpassing in splendor of bloom all the annual and biennial kinds, and for a gorgeous display of rich and brilliant coloring nothing equals them during their period of flowering in May and June, and whether planted singly or in masses their large flowers and freedom of bloom render them conspicuous in any position. They are of the easiest culture; almost any kind of soil suits them, but they do best in deep, rich loam. Set the plants out in the Fall or early Spring before the first of May—give them water occasionally during dry spells in the early part of the season. Mulch with stable litter in the Fall; and they will increase in size and floriferousness for several years. We offer the best of the latest introductions, as well as the distinct standard varieties.

Three Doz. 100

Oriental (Oriental Poppy). Tremendous scarlet, cup-shaped blooms of brightest crimson-scarlet, with large, purplish black blotches at base of petals, creating a wonderful contrast when bloom is fully open. Clumps of these throughout the border add a brilliancy that no other flower can provide. $1.00 $3.00 $20.00

Oriental, Beauty of Livermore. Crimson, with black blotch; fine flowers. 1.35 3.75 27.50

Oriental, May Sadler. A deep red. 1.40 4.00 30.00

Oriental, Mrs. Perry. Orange-apricot; very fine. 1.10 3.25 22.50

Oriental, Perry’s White. (New). The most distinct break in Oriental Poppies that has yet been made; the flowers are a fine satiny white with a crimson-maroon blotch at the base of each petal. 1.40 4.00 30.00

PAPAVER NUDICAULE (Iceland Poppy).

The plant is of neat habit, forming a tuft of bright green fern-like foliage, from which spring, throughout the entire season, a profusion of slender, leafless stems 1 foot high, each graced with charming cup-shaped flowers.

Baker’s Sunbeam Mixture. Three Doz. 100

Papaalpinum. Like a small and more delicate Iceland Poppy having flowers of white, pink, orange or yellow and often delicately fringed. Transplants best when quite small. True stock, from Switzerland. 1.00 3.00 20.00

Papaver Tubetica. Very attractive Alpine with showy orange flowers produced in great quantities; the whole plant unlike a dwarf orange papaver nudicaule, but giving twice as many flowers and more readily transplanted; excellent for the rock garden. 1.00 3.00 20.00
Hardy Phlox
of Recent Introduction and Unusual Merit

**Count Zeppelin** (Graf Zeppelin). Pure white flowers with vermilion-red eyes. A strikingly clean-looking Phlox. There is no fading or suffusing of color. It is considered the best of the so-called calico types. It is very free flowering, and a good grower. The plants reach a height of about 30 inches. 3 for $1.90; 12 for $5.50; 100 for $45.00.

**Beacon**. Brilliant cherry-red, a correct description of the color of this kind. Grows 36 inches high. The flower heads are carried on straight, strong stems. It is an excellent variety and one of the best of this color. 3 for $1.00; 12 for $3.00; 100 for $20.00.

**Thor**. Not a new sort but a variety that is becoming more and more popular because of its splendid free-flowering qualities. The color is a beautiful lively shade of deep salmon-pink, overlaid with a scarlet glow. It has a small aniline-red eye. Being a good grower, never giving any trouble and always full of bloom, we consider this one of the best of the salmon-pink sorts. 3 for 85c; 12 for $2.50; 100 for $18.00.
The type we are herewith offering is known as the Hardy Border Carnation, or the "Grenadin Carnation." They resemble the Pinks but produce flowers on long stems just as the greenhouse varieties do. Each plant will produce from ten to fifteen flower spikes and each spike will have as many as six or eight flowers.

The flowers shown in this illustration are on stems which have been disbudded; removing all buds except the central one on top of the stem, this makes for large show flowers. If not disbudded you will get more flowers but not so large.

Plants should be transplanted in early Spring and prefer a sunny position in well drained ordinary garden soil. When plants get two or three years old it is best to cut them back immediately after they have flowered, cutting back improves the appearance of the plants. We prefer to offer them in a mixture only in all shades of red and pink with occasional white and yellow. Sometimes a single flowered plant appears but these are as handsome as the doubles.

Choice Mixed Hardy Border Carnations, Strong Field Grown Plants, per 3, $1.00; per 12, $3.00; per 100, $20.00
Choicest Wayside Gardens Unnamed Hybrid Delphiniums

The range of colors varies from the palest shade of blue to the deepest indigo blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among these new hybrids are flowers of huge size in both single and double forms. This strain has been raised from seed saved from the finest named kinds in creation. Visitors at our nursery proclaim them the best they have ever seen. Those who wish to perfect their already much prized borders cannot afford to overlook these wonderful hybrids. Per 3, $2.00; per doz., $5.50; per 100, $45.00.
Lilium Regale or Myriophyllum, the Queen of Lilies

Growing anywhere under almost any condition, establishing itself without any trouble or effort on your part, it is in our mind the easiest, and one of the most beautiful and hardest Lilies in cultivation. Lilium Regale is truly a royal Lily, worthy of a place in every garden. A vigorous grower with sturdy stems; 4 to 5 feet high, densely covered with long, lanceolate foliage. Center of flower flushed with yellow, shading to white at the outer edges; externally the flowers are streaked with brown, shaded through the almost translucent petals with a delightful pearly tint; the contrast between the rich color of the reverse of the petals and the gold shading of the throat is extraordinarily beautiful. Thrives in any good rich soil and is the easiest of all Lilies to grow. Stem-roots; plant Fall or early Spring, about 5 inches deep. July flowering. In order to bring this unusually handsome Lily into the hands of every flower lover and gardener we offer it in three sizes, the smallest of which will produce 3 to 4 good flowers, not as many on one stem as is shown in the illustration which is a spike produced by a 7- to 8-inch bulb. (Our stock is the largest in cultivation in America).

Seed of Lilium Regale (will produce flowering bulbs in two years time). Package containing about 200 seeds for 50c.
The wayside gardens company, mentor, ohio

Paeonia Sinensis

The varieties we offer are arranged alphabetically, and where known, the name and date of the introducer immediately follow in parentheses. As color comes first in the choice of Peonies, we have placed the color on the same line as the name. Size and type naturally appeal next, and so follow the color. Having found these satisfactory in any variety described, one naturally looks for the character and habit of the plant. To further aid purchasers we shall be pleased to give by letter further information to intending purchasers.

Figures following name indicate rating by American Peony Society.

Albert Crousse. 5.6. (Crousse, 1893). Very fresh salmon-pink, delicate color. Large compact bomb shape; fragrant; erect; medium height. Late $1.00 $10.00

Albatre. 5.7. (Crousse, 1885). Milk-white center, petals tinged lilac. Large, compact, rose type bloom; strong, vigorous grower and free bloomer. Midseason .75 7.50

Avalanche. 5.7. (Crousse, 1886). Creamy white, slightly veined with crimson. Large, compact crown type; fragrant; strong growth. Midseason .75 7.50

Augustin d’Hour. 5.8. Bomb type; midseason. Extremely large; showy, perfectly built bloom. Color very deep, rich, brilliant soferino-red with slight silvery reflex. It is a taller grower and larger flower than Felix Crousse .75 7.50

Baroness Schroeder. 9.0. Rose type; late. White with shadings of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant 2.00 20.00

Couronne d’Or. 8.1. (Calot, 1873). White with yellow tints arising from a few stamens showing amidst the petals. Center petals tipped with carmine. Large, rather full flower of superb form. Strong grower and very free bloomer. Good keeper. Late .75 7.50

Duchesse de Nemours. 9.1. (Calot, 1858). Guard petals white, center lemon-yellow. cup-shaped; at first it develops into a large bloom, gradually fading to white; fragrant; strong grower and free bloomer. Extra good commercial variety. Follows two or three days later than Festiva Maxima .50 5.00

Edulis Superba. 7.6. (Lemon, 1834). Dark pink, even color; large, loose, flat crown when fully open. Very fragrant; upright growth; early bloomer. One of the best commercial Peonies. There is much confusion over this variety being sold under twenty or more different names .50 5.00

Eugenie Verdier. 5.6. Late. Very large, compact blooms of pale hydrangea-pink, with outer guard petals lilac-white; fragrant; extra strong stems 1.50 15.00

Felix Crousse. 5.4. (Crousse, 1881). Very brilliant red. Medium to large, globular, typical bomb shape; fragrant; strong growth. Stems rather weak. Midseason 1.00 10.00

Floral Treasure. 7.5. (Rosz, 1900). Very large, semi-rose type. Pale lilac-pink. Fragrant. Strong, tall, upright grower; free and later. One of the best commercial blooms. Midseason 1.00 10.00

Festiva Maxima. 9.2. (Mielez, 1851). Paper-white, crimson markings in center. Very large and full, rose type; very tall, strong growth. Early .75 7.50

Karl Rosenfeld. 8.8. Very large flower; globular, semi-rose type. Extremely vigorous grower, tall, and free-flowering. As an early red it has no equal 1.50 15.00

Figure should be planted during early Autumn, unless otherwise specified.
Festiva Maxima.

No garden complete without this white Peony. We consider it the best all around white kind in cultivation.

Mad. Crousse.

PAEONIAS—Continued.

3-5 Eyes
Each Doz. *

Kelway’s Glorious. 9.8. Flowers large, full, double rose type; cream-white, overlaid with a soft blush of rose; very exquisite; fragrant; late midseason. Considered by many as the finest of Kelway’s Peonies ........................................ 12.00

Lady Alexandra Duff. 9.1. Delicate pale pink fading to white. Main flower large, cup-shaped, rose type. Blossoms form side buds often semi-double, exposing the anthers; fragrant ........................................ 4.00 4.00

Le Cygne. 9.9. Very large, perfectly formed flower, freely produced; cream-white with a touch of green at the heart. The finest white. Received the highest rating of any Peony ........................................ 12.00

Mme. Crousse. 7.9. Pure white with faint crimson markings. Large, globular, flat crown type; fragrant; medium height. Midseason ........................................ 1.00 1.00

Madame Ducel. 7.9. (Mech., 1880). Large globular, typical bomb. Light mauve-rose, 1 (153), with silvery reflex. Fragrant. Strong grower, medium height; very free. Extra .............................. 0.75 0.75

Mme. Emile Galle. 8.5. (Crousse, 1881). Very soft pink, changing to milk-white in center. Very large, compact, flat; rose type; tall, strong, fragrant. Late ........................................ 7.50 7.50

Mme. Forel. (Crousse, 1881). Enormous, very full, double bloom; color glossy, the “Princess of Pink Peonies,” a title it well deserves and proudly carries. Extra fine ........................................ 0.75 0.75

Marguerite Gerard. 8.4. (Crousse, 1892). Very pale salmon-pink, fading to almost white. Large, compact, rose type; very strong growth. Late ........................................ 7.50 7.50

Modeste Guerin. 7.8. (Gr., 1845). Large, compact, typical bomb. Uniform solferino-red. Fragrance XX. Medium height; extra strong; free bloomer. Midseason. Extra good variety ........................................ 0.75 0.75

Mons. Dupont. 8.3. Very large, cup-shaped flower; ivory-white; center petals splashed with carmine. The golden stamens show at the base of the petals; fragrant; a strong grower; very tall; midseason ........................................ 7.50 7.50

Mons. Martin Cahuzac. 8.5. Medium size, globular, semi-rose type. Dark purple-garnet with black reflex. The darkest Peony known. Strong, vigorous grower, free bloomer; midseason ........................................ 4.00 4.00

Mons. Jules Elie. 9.2. The peerless pure pink. Broad, reflexing guards with a high pyramidal body of semi-quilled petals converging to an apex. One of the largest, handsomest and most lasting cutting sorts in existence ........................................ 1.00 1.00

Octavie Demay. 8.5. Very large, flat crown. Guards and center pale hydrangea-pink, collar almost white. Rather dwarf habit; but free, fragrant, midseason bloom ........................................ 1.00 1.00

Officinalis Rubra fl. pi. Rich deep crimson; the great Decoration Day Peony ........................................ 0.75 0.75

President Taft. 8.7. A vigorous, strong grower, a profuse bloomer, every shoot being crowned by a big bloom. The flower is really of enormous size; there may be Peony flowers as large, but none larger. The color is a delicate hydrangea-pink, completely enveloped in a halo of angelic white. The fragrance is delicious. It is certainly a glorious, gorgeous flower, very large and double ........................................ 1.50 1.50

Rubra Superba. 7.2. (Richardson, 1871). Deep carmine-crimson. Large, fragrant, rose type; medium height. Very late ........................................ 1.00 1.00

Sarah Bernhardt. 9.0. Late. Flat, compact, semi-rose type. Uniform mauve-rose, silver tip. Erect, tall, free ........................................ 1.00 1.00

Solange. 9.7. Flower very large, compact; rose type; outer petals delicate waxy white, deepening toward the center with shades of orange and golden brown. One of the most beautiful Peonies in existence; a strong grower and a late, free bloomer ........................................ 4.00 4.00
FAEONIAS—Continued.

Therese. 9.8. A most desirable variety of a charming shade of violet-rose, changing to lilac-white. Develops a high crown; strong grower and very free bloomer. A splendid addition to the mid-season sorts of which it is one of the best  $4.00 $45.00

Venus. 8.3. (Kelway). Exquisite pointed buds, opening into large, compact flowers of delicate shell-pink with a collar of flesh-white. Extra good both as a garden flower and as a cut flower. Of the best in our collection. Mid-season 1.25 12.50

Walter Faxon. 9.3. (Richardson, 1904). Semi-rose type; midseason. A very distinct, delicate rose colored flower. Tall, free bloomer. Those who know this variety consider it one of the best pinks. Scarce 6.00

New Japanese Peonies

A type not very generally known, but in every community, wherever established, is awakening great interest and enthusiasm. The opened flowers are of extra wide spread, with one or more layers of broad guard petals which act as a cup to the mounded center. In place of the pollen-bearing stamens which center the Single Peony flowers, in this class the stamens and anthers are greatly enlarged into narrow, thick, twisted petaloids of various colors, forming a dense cushion.

We heartily recommend our list to those who want something different from the other fellow's; and to Peony planters generally, as types which will add zest and beauty to their gardens. Orders for the following booked now for September delivery.

Strong Divisions, Each

No. 6. Gumpoo-no-nishiki. All-over violet-rose, lower petals striped with white; full crown center  $ 6.00
No. 11. Yoochi-no-tsuki. Six- to eight-inch flowers with prominent cushion center; white, occasionally flushed pink, with amber cream petaloids 4.00
No. 15. Fuyojo. This is the darkest, richest and most distinctly Japanese of our group. Broad, rounded guards of dull—although velvety—mahogany. The fine, curly petaloids form a conspicuous, dense center; golden, streaked on reverse side and heavily tipped with light bronze 10.00
No. 20. Fuji-no-mine. A very large and free-blooming sort; white, with rich cream center 6.00
No. 42. “Rose of Nippon.” A wonderfully free bloomer, a persistent mass of brilliant 6-inch flowers. Very deep rose, the broadly prominent center darkened by carmine, and illuminated by countless star-points of both silver and gold. Many centers are slightly tufted 5.00
No. 47. Fuji-some-gorono. Inexpressibly beautiful in its matchless symmetry and delicate color tones. Immense, flattened, poppy-shaped flowers borne very freely. The two layered guards are broadly rounded, an exquisite shade of satiny wisteria-pink. The crinkly cushion is pure gold, toned warmly towards the base with coral. A most charming color combination 7.00
No. 86. Oki-no-nami. Tall, free-flowering and showy, Pale hydrangea-pink; with full, fine-cut center of peach-pink and cream. It does not require a strong imagination to get the Japanese descriptive impression 5.00
No. 135. Kara-orinishiki. This shows uniquely fluted petals, with ends deeply indented. These are white, irregularly streaked and tipped with lilac-red. The center is medium sized, but bright with deep gold filaments, and carmine seed pods 5.00

Single and Semi-Doublt Peonies

An interesting class bearing a general resemblance to the Japanese species. They have one or two rows of large, rounded guard petals, with distinct centers of pollen bearing stamens in some shade of yellow.

The Moor. A useful landscape type with long, nodding stems and single flowers 8 to 10 inches across. Ruby buds open to solferino-red permeated with crimson and faintly edged silver, clouded with violet on reverse; with conspicuous yellow cushion 2.00

Lotus. One of the very earliest blooming Peonies, but keeps right on with the midseason type and still shows its stars when the late doubles usher in the end. Blooms kept for water as long as ten days. It is a strong grower with dark leaves, and long, rigid stems. Flowers are borne in clusters of three to five. The small center is dense and showy; bright gold with carmine seed pods. Color at first is warm pink, fading gradually to pure white; the center remaining constant 2.00

Marie Jacquin (The Water Lily Peony). Beautiful single and semi-double flowers in over-topping abundance; the waxy, pure white cups with crowded center of golden stamens, creating the delightful impression of water lilies riding the surface of a moss green pool 1.50

Page Forty-three
PACHYSANDRA (Japanese Spurge).  
Terminalis. A trailing plant 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover, which will grow in all shady situations and the only plant which will thrive under pine trees. Some of its main uses are: Under all evergreen plantings, under all shrub plantings, for areaway copings, for loggia and enclosed porch uses, for shrub and flower bed borders, for bordering walks and drives, for steep terraces in sun or shade, for city yards it is ideal, for dense shade under any kind of trees.

PENTSTEMON (Beard Tongue).  
Most useful and showy perennials. Some varieties are not hardy. Those below are fairly so. June and July. 3 feet.  

Barbatus Torreyi. Spikes of bright scarlet flowers from June till August. A very effective plant for hardy beds. $0.85 $1.50 $15.00

Barbatus, Pink Beauty. Spike is 30 inches, not as "stringy" as Torreyi, and flowers plentiful on the spike. Color is bright, clean shell-pink. Perfectly hardy in any soil or climate, and is a beautiful cut flower; one of the outstanding new plants, makes a delightful companion with gypsophila. 1.75 5.00 40.00

Digitalis. White Foxglove-like spikes. .35 2.50 18.00

Ovatus. One of the best. Spikes of exquisite sky blue blossoms, shaded amethyst; 3 feet; flowers 2 to 3 inches long. 1.75 5.00 40.00

Fyrrnenaus. Very dwarf, only 6 inches high. Flowers of clear blue from July to September. 1.75 5.00 40.00

Pubescent (Eltratus). Stems 24 inches high, covered with violet flowers shading to a flesh-pink; excellent for hot, dry place in the garden; is also a very fine wall or rock plant. It enjoys hot, dry exposures. 1.35 3.75 27.50

Unilateralis. A very fine June-flowering variety producing 6 to 10 erect spikes, 24 to 30 inches long, covered from top to bottom with opalescent blue flowers. A beautiful border plant and splendid cut flower, lasting for several days in water. 1.35 3.75 27.50

Lilacina. Light lilac. .85 2.50 18.00

Rosea. Rose-pink. Fine for covering banks; thrives in hot, dry situations, and blooms profusely. .85 2.50 18.00

Vivid. Bright pink with fiery red eye. We would say that this is the finest free-flowering dwarf Phlox in existence. 1.40 4.00 30.00

Various Phlox  
Amoena. This is one of the best varieties for carpeting the ground, the rockery or the border. It grows but 4 inches high, and in the Spring is a sheet of rich bright pink flowers. .85 2.50 18.00

Divaricata canadensis. One of our native species, which is worthy of extensive planting, commencing to bloom early in April, and continuing through May, with large, fragrant, lavender flowers on stems 10 inches high. 3-inch pots 1.00 3.00 20.00

Maculata. Very much like a rose red Miss Lingard. Free-flowering; good for poor, sandy soil. .85 2.50 18.00

Ovata (Carolina). Bright rosy red flowers. 1 to 1½ feet. June-July 1.00 3.00 20.00
PHLOX

PHLOX DECUSATA (Hardy Phlox).
These beautiful hardy border plants are among the most effect¬
ing things in the garden during the late Summer and Fall
months. The varieties have been much improved during the
past few years, both as to color and size of bloom. To be at
their best, they require soil which has been deeply enriched
and plenty of water during the blooming period. It is also well
to remember that they should never be allowed to go to seed
and should be divided every four years, or they will become
small and in not a few cases, change their color. If attacked
by red spider, spray with lime and sulphur.
We have tried to confine our list to the very best of the numer¬
own varieties offered and can safely say there is not a poor
variety in the lot.

IMPORTANT
As fast as new and improved Phlox are put on the market,
we discontinue the older varieties of no particular merit,
thereby keeping our list up-to-date and not filled with useless
sorts. Some of these old-fashioned sorts we still mention in
our list, but have followed the names with the names of va¬
rieties which have replaced them. Good old varieties with
outstanding qualities, have, of course, been retained.

Athis. (Discontinued). Replaced by Thor.
Antonin Mercie. A delicate lilac-blue, free¬flowering variety of medium height, and
fairly free from red spider. During pro¬
longed hot weather the color fades to a
very pale lilac; in light shade, however,
the coloring is constant. This and
Maid Marion are the best of the Ilaces. $1.10 $2.25 $22.50
B. Comte. Tall growing variety produc¬
ing large heads of rich satiny amaranth
flowers. A very brilliant Phlox. Looks
well planted close to a yellow-flowered
Phlox. $1.10 2.25 22.50
Beacon. Brilliant cherry-red. Grows 36
inches high. The flower heads are carried
on strong stems. An excellent variety and one of the best of this color. 1.00 3.00 20.00
Commander (Von Hindenburg). The color
is a brilliant deep crimson-red with
slightly darker eye. Grows about 24 to
30 inches high and produces great
many spikes creating a wonderful dis¬
play of color. This variety is compara¬
tively new but already a great favorite. 1.35 3.75 27.50
Champs Elysee. (Discontinued. Replaced
by B. Comte.
Count Zeppelin (Graf Zeppelin). Pure
white flowers with vermilion-red eye. A
strikingly clean looking Phlox. There
is no fading or suffusing of color. Con¬
sidered one of the best of the so-called calico
types. Very free-flowering, and a good
grower. The plants reach a height of
about 30 inches 1.50 5.50 45.00
Elizabeth Campbell. Light salmon-pink
with lighter shadings toward the cen¬
ter of flower. Decidedly the finest Phlox
of this color, but unfortunately, a weak
variety and slow grower, requiring more
care and attention than most varieties. 1.35 3.75 27.50
Ethel Pritchard. A delightfully French¬
manicured Phlox, which if seen on
a cloudy day, looks almost as pale blue
as our native Phlox Divaricata. It is a
strong grower; flowers freely, and should
be planted with white or yellow flowers
to look its best. Fairly tall grower 1.35 3.75 27.50
Eugene Danaanvillier. (Discontinued). Re¬
placed by Antonin Mercie.
Europa. White changing to a pale blush
white toward center with a red eye.
This variety is similar to Count Zeppelin
but has a light pinkish cast to it. Pro¬
duces large heads freely and is a good,
strong grower of medium height .85 2.50 18.00
Fiancée. (Discontinued. Replaced
by B. Comte.
Frau Anton Buchner. (Discontinued). Re¬
placed by Von Lassburg.
Fuerbran (Fireglow). Brilliant orange¬
scarlet, sometimes almost vermilion.
Flowers very freely and blooms are
produced in quantity throughout the
entire season. Of medium height, and
one of the most brilliant Phlox known. 1.40 4.00 30.00
Independence. (See Mrs. Jenkins).
Jules Sandeau. Rather dwarf in habit, but
producing very large heads of brilliant
watermelon-pink blossoms. An out¬
standing variety because it flowers more
clearly and longer than most Phlox, and
is practically free from the attack of red spider. We consider it the best of
this color 1.00 3.00 20.00
The Wayside Gardens Company, Mentor, Ohio

Jeanne d’Arc. (Discontinued). Too much like Mrs. Jenkins, which is superior.

La Vague. Warm mauve-pink with red eye. This Phlox does not look nor create the effect that the so-called wild or purple Phlox does. The flower heads are conical and large, and borne in great profusion. Looks well with deep purple and pale yellow flowers

Louis Abbeau. (Discontinued). Replaced by Mia Ruys.

Lord Raleigh. Dark mauve with decidedly purplish tint. A very unusual variety. Free-flowing and rather tall. Excellent with yellow and white. A variety often mentioned by Mrs. Francis King.

Marie’s Jacob. (Discontinued). Color not strong enough. Use Maid Marion.

Maid Marion. Good lilac flower heads. Not a new variety but an excellent kind that will be with us a long time. The color and habit are very similar to that of Antonin Merce but grows a little taller when well established.

Mia Ruys. Rather dwarf in habit, but produces enormous and much branched trusses of the purest white flowers possible. The habit is very free, with splendid dark green foliage. A great improvement and the best white Phlox in cultivation for midseason effects.

Miss Lingard. This variety is not a Decussata type like all the others in the list, but a Suffruticosa. The distinguishing marks are that it flowers a month earlier than the Decussata sorts. Has beautiful, long shiny green foliage, and absolutely free from any disease. Therefore, Miss Lingard is one of the finest Phlox. It flowers from early June until October with large heads of white flowers with faint pink shadings in center. It is the best early white Phlox known.

Mrs. Jenkins (Independence). Pure white, late flowering, grows very fast and is of medium height. A splendid sort for planting in masses. Few varieties equal its free-flowing habit. Free from any disease and can always be depended on. An old sort but worth while.

Mrs. Milly Van Hoboken. An excellent new variety. Very large florets combined in rather loose, large heads. Color bright pink with a slight and delicate mauve suffusion. Strong grower and free-flowing. The general color effect, at a distance, is a fine bright pink.

Pantheon. (Discontinued). Replaced by Thor.

Prof Verschow. (Discontinued). Replaced by Beacon.

Rheinlander. A splendid old-time variety of good growing quality, and excellent habit. Flower heads are large and on good strong stems. The color is a beautiful salmon-pink.

Richard Wallace. (Discontinued). Replaced by Europa.

Rijnstroom. A good strong grower producing an abundance of stems, each one topped with heavy trusses of flowers of a lively rose-pink, much like the color of the Paul Neyron rose.

Thor. Not a new sort but becoming more and more popular because of its splendid free-flowing qualities. Color a beautiful shade of deep salmon-pink, overlaid with a scarlet glow. It has a small aniline red eye. Being a good grower, never giving any trouble and always full of bloom, we consider this one of the best of the salmon-pink sorts.

Von Lassburg. A splendid midseason, tall, white variety. Trusses are large and stems are good, very free flowering. Rather tall and fine for the back of the border.

W. C. Egan. (Discontinued). Replaced by Ethel Pritchard.

PHYSALIS (Chinese Lantern Plant).

Franchetti. An ornamental variety of the Winter Cherry, forming dense bushes about 2 feet high, producing freely its bright orange-scarlet, lantern-like fruits, which, when cut, will last all Winter. Very attractive plant.
PHYSOSTEGIA (False Dragonhead).

**Virglnica.** Forms large clumps 3 to 4 feet high, bearing long spikes of delicate pink flowers, tubular in form. July to August.

**Virglnica alba.** Pure white.

**Virglnica, Vivid.** This is a seedling of our own; it blooms three weeks later than the others and the flowers are a deeper color pink; much larger and better, lasting a long time when cut.

PINKS (Hardy Garden, see Dianthus).

**PLATYCODON (Balloon Flower).**

**Grandiflora.** Blue. 18 inches. June to October. Large, showy, deep blue flowers. Good for rock garden and border.

**Grandiflora alba.** White-flowered form of the above.

**Mariesi.** Blue. 12 to 15 inches. July until late September. A beautiful dwarf species, with broad, thick foliage and large, deep violet-blue flowers.

**Mariesi alba.** White-flowered form of the above.

PLUMBAGO (Leadwort).

**Iiarpentae.** One of the most desirable border and rock plants. It is of dwarf, spreading habit, growing 6 to 8 inches high, covered with deep blue flowers during the Summer and Fall.

POLLENIONUM (Jacob's Ladder).

**Album.** A white variety of coeruleum.

**Coeruleum (Richardsoni).** Erect stems of sky-blue flowers. 1 to 1 1/2 feet. June to July.

**Reptans (Greek Valerian).** 8 to 10 inches. April to June. Dwarf, bushy plant of graceful growth. Showy blue flowers. Rock garden and fine border plant.

PRIMULA - Hardy Primrose

Splendid little plants for naturalizing near shrubs, in the border or shaded spots on the rockery.

**Auricula alpina.** One of the treasures of the rock garden. The growth is very attractive, forming rosettes of thick leaves, sometimes farinose or mealy. The flower stalks rise to a height of six or eight inches, bearing heads of bloom of various colors; exceedingly fragrant.

**Cashmiriana.** (New). Large, globular heads of a pleasing purplish blue shade; prefers a moist, shaded situation.

**Cortusoides.** A distinct Siberian species, with soft, wrinkled, heart-shaped leaves. Flowers in early Summer, deep rose. Prefers light, rich, well drained soil, in a sunny position, in border or rockery; 10 inches.

**Moenheim Hybrids.** A new strain of Hardy Primulas with the constitution of P. japonica, resulting from crossing of several. Colors range from cream to many shades of yellow, orange, purple, lilac, pink and crimson. They are very hardy and prefer a half-shaded position that is fairly moist; very unusual.

**Pulverulenta.** Rich crimson in color, in whorls, on stems 3 feet high. One of the finest varieties.

**Vulgaris.** The old English Primrose with pale yellow flowers.

POLYANTHUS (Bunch Primrose).

The polyanthus is an indispensable Spring flower and should be grown liberally in flower beds and borders, also wild gardens and rockeries. It likes an open, half-shady position in rich soil and under such conditions will bear flower stems a foot high.

**Exhibition Yellow.** A very beautiful strain, varying from deep to light yellow.

**Exhibition White.** A very fine large-flowered pure white, with striking yellow eye.

**Exhibition Blue.** A very fine mixture of deep purple and blue shades; very striking and unusual, not to mention rare in Primroses.

**Exhibition Pink and Red Shades.** Very handsome, ranging from light to dark red, with yellow eye.

**Moenheim Mixed.** In shades of yellow, from cream to dark orange, selected and perfected by Miss Jekyll of England.

**Yeats Hybrids.** This strain includes various shades of lilac, purple and violet, as well as a wide range of buff, orange, salmon and rich reds approaching scarlet in intensity. Quite hardy and of vigorous growth.
POLYGONATUM (Solomon's Seal).

_Multiflorum major_. Pendent sprays of greenish white flowers borne on long stems. 2 feet. May and June. A grand plant for a shady position, where it has plenty of room to show its pendent sprays of bells. Fine for cutting...$1.00 $2.00 $3.00

PULMONARIA.

_Angustifolia azurea_. A lovely early blue Spring flower not unlike Mertensia, but the shorter flowers and when through blooming the plant has beautifully marked foliage...3.00 $15.00

PYRETHRUM (Persian or Painted Daisy).

_The Pyrethrums are so easily cultivated that they may be recommended to all who possess a garden. They are perfectly hardy and absolutely invaluable for cut flowers throughout the Summer and early Fall. In form, the double varieties are somewhat chrysanthemum-like, and as their chief beauty is in the months of May and June, they may well be designated Spring Chrysanthemums. The single-flowered varieties are variable-colored Marguerites and possess a range of color Marguerites might envy in vain. Nothing can surpass the Pyrethrum in profusion of flowers throughout May to July, and the blossoms are not injured by storm or sun. As a cut flower, their long stems make them ideal for decorative purposes. Their position should be in the border or in beds, in full sun. Transplant in August._

Three Finest Mixed of English Double and Single Varieties. Strong, 3-year clumps $0.85 $2.50 $18.00

Three Finest Mixed of English Double and Single Varieties. Strong, 3-year clumps $0.85 $2.50 $18.00

RUDBECKIA (Coneflower).

_Golden Glow_. One of the most popular hardy plants. Grows six feet high, producing masses of large, double, golden yellow flowers, shaped like a cactus dahlia...1.00 3.00 18.00

_Maxima_. A rare and attractive variety, growing 5 feet high, with large, glaucous green leaves and bright yellow flowers 5 to 6 inches across, with a cone 2 inches high; flowers continuously from June to September...1.10 3.25 22.50

_Newmannii_. The perennial form of the "Black-Eyed Susan." Deep or black-eyed Susan, with a dark purple cone; long wiry stems 3 feet high; blooms all Summer...85 2.50 15.00

_Purpurea_. (Giant Purple Coneflower). Peculiar reddish purple flowers, with a very large, brown, cone-shaped center. Blooms from July to October. 3 feet...85 2.50 15.00

_Salvia (Meadow Sage)_.

_Aurea_. A Rocky Mountain species. Grows 3 to 4 feet high, producing, during August and September, pretty sky-blue flowers in the greatest profusion...85 2.50 15.00

_Parviflora_. Beautiful pale blue flowers...85 2.50 15.00

_Pulchra_. Similar to the above, but of more branching habit and large flowers of a rich gentian blue color, and one of the most admired plants by the many visitors to our nurseries during the early Autumn...3 to 4 feet...1.10 3.25 22.50

_Patens_. Dwarf blue flowers in June...85 2.50 15.00

_Turkestanica_. Extremely decorative sweet scented foliage and showy whorls of white flowers surrounded by pale pink...1.10 3.25 22.50

_Virga nemorosa_. Distinct and effective foliage with showy whorls of white flowers...85 2.50 15.00
SANTOLINA (Lavender Cotton; Ground Cypress).
A sweet smelling, dwarf, evergreen perennial, with delicate, silver-white foliage, useful as rock or border plants; also largely used in carpet bedding.

Three Doz. 100

Chamaecyparis incana. 1 foot $0.85 $2.50 $20.00

SANGUINARIA.
Canadensis (Bloodroot). Native. A low perennial, about 6 inches high, with pure white flowers an inch in diameter, in early Spring. The large, leathery leaves appear later. Plant in rich, shady places or rock garden. $0.85 2.50 18.00

SAPONARIA (Soapwort).
Ocymoides alba. A grand pure white-flowering plant for wall or rockery $0.85 2.50 18.00

SAXIFRAGA (Megasca).
Cordifolia. These will thrive in any kind of soil and in any position. Grow about 1 foot high, and are admirable for the front of the border or shrubbery, forming masses of handsome, broad, deep green foliage, which alone renders them useful; flowers appear very early in the Spring. Fine among rocks or ledges 2.00

Crassifolia. 12 to 15 inches, April to June. Showy and spreading. Drooping masses of pink flowers high above the large, clustered leaves. A fine rock plant 2.00

Diascia. (Crimson Moss). Dwarf, mossy plants bearing white flowers in May and June. The green foliage turns a bright crimson in Winter. 4 inches high. Splendid rock plant 1.60

Hypnoides (Dovedale Moss). Easily grown in this country as well as in Europe. A rapid, easy carpeter or excellent in pockets in the rock garden. Pure white 1.60

Megasca Hybrids. Handsome plants in fine mixture of all shades of rose or pink. Excellent foliage. Good for the rock garden or border. Does well in shade or sun. These hybrids are our own introduction 1.20

McNabiana. 1 foot. Numerous white flowers, heavily speckled with pink to purple dots. The spots large. May and June 2.00

Michauxi (Mohaux Saxifraga). Alpine variety. Rare. Strong, established plants 1.60

Virginiensis. A low perennial, 4 to 5 inches high, with a cluster of pretty white flowers appearing in early Spring. Fine for rockeries 1.20

SCABIOSA (Pincushion Flower).
Handsome border plants, succeeding in any ordinary soil if well drained and in a sunny location, and should be grown in every garden where cut flowers are wanted; they last a long time when picked and placed in water.

Three Doz. 100

Caucasica (Blue Bonnet). A soft and charming shade of lavender; commences to bloom in June, throwing stems 18 to 24 inches high until September $1.10 3.25 22.50

Caucasica alba (White Bonnet). The white form of the preceding 1.35 4.00 30.00

Japonica. Lavender-blue flowers, from July to September. 2 feet 1.00 3.00 20.00

Pennsylvanica (Cephalaria tatarica). Large golden yellow flowers, similar to the true Scabiosa in form. 5 feet 1.00 3.00 20.00

SCUTELLARIA (Skull Cap).
Baicalensis coelestina. Short, wiry stems, clothed with clear blue Snapdragons-shaped flowers. 1 foot. June to August 1.10

SENECIO (Groundsel).
Glycyrhiza. Forms a neat tuft of foliage, from which spring up from July to October a succession of 3-foot stems, with clusters of orange-yellow flowers 1.10

Veitchianus. From a wide spreading tuft of large cordate leaves, tall flower stems rise, bearing bright yellow blossoms along the upper portion of the stem for a length of two feet. Good border plant for moist or shady places 1.60 4.75 35.00

Page Forty-nine
SEDUM - Stonecrop

The dwarf varieties are charming plants for sunny positions in the rockery, etc., and the taller kinds make effective color groups in the border. They thrive in almost any soil. They are especially fond of sand and full sun, and may be considered the backbone of the American rock garden.

SHORTIA.  
*Galacifolia.* A rare and beautiful species, but recently introduced from the mountains of North Carolina. The leaves are evergreen and the petals, five in number, are pure white, and scalloped or notched on the edges. Flowers about an inch across in early Summer. Plant in a rich, shady place. Hardy... $1.60 $4.75 $35.00

SIDALCEA (Greek Mallow).  
Erect-growing, more or less branching plants, producing their showy flowers during June and July. They will succeed in any garden soil in a sunny position.  
**Rosy Gem.** Pretty, bright rose colored flowers. 2 to 3 feet. $1.00 $3.00 $20.00

SILENE (Catchfly).  
A charming class of plants for the rock garden. They are closely allied to the Pink family and require much the same treatment. They bloom nearly all Summer and are very desirable additions to the rockery.  
**Alpestris.** Dwarf rock plant, dainty, pure white flowers in May and June. $1.10 $3.25 $22.50

SPIREA - Astilbe  
(Arendsii and Japonica Hybrids)  
Hybrid varieties of very vigorous growth, producing many-branched, feathered heads of flowers in June and July. They prefer a half-shady, moist position in any ordinary garden soil. We offer 3-year-old, large, field-grown clumps only, for immediate effect.  
**America.** Deep pink: excellent forcing variety. Fine for early forcing. $0.70 $1.75 $5.00

Spires, Betsy Cuperus.  
**Betsy Cuperus.** Splendid new variety, growing 5 feet high. The fine drooping flower spikes, 2 feet long, show in Summer during some weeks a great number of white flowers with pink center. .80 2.25 7.00

Spirea Aruncus (True Goat's Beard).  
**Cera.** Growing 2½ to 3 feet high, with spikes of a rosy lilac color; fine garden variety. .80 2.25 7.00

Spirea Aruncus (True Goat's Beard).  
**Fruule Van Den Bosch.** New variety, growing about 3½ feet high. Produces compact flower spikes of a dark pink color. Splendid novelty for the garden. 1.25 3.00 10.00

Spirea Aruncus (True Goat's Beard).  
**Gladstone.** 18 inches. June-July. A fine variety. Immense trusses of flowers are white and are borne on erect, strong stocks; best white for forcing. .70 1.75 5.00

Spirea Aruncus (True Goat's Beard).  
**Grandis rosea magnifica.** The drooping spikes of flowers have a length of over 2 feet, and are a beautiful creamy white, with pink centers. 8 to 6 feet. .80 2.25 7.00

Spirea Aruncus (True Goat's Beard).  
**Grano.** This new Astilbe grows 4 feet high and produces light and graceful spikes of spreading habit and has a splendid salmon-pink color. Award of Merit R. H. S. of Holland. .90 2.25 7.00

Spirea Aruncus (True Goat's Beard).  
**Marguerite Van Rechteren.** This plant grows about 5 feet high. The flower stem itself has a length of over 3 feet. The very fine fringed flowers are bright red tinged with dark lilac. .90 2.25 7.00

Spirea Aruncus (True Goat's Beard).  
**Mowe.** Striking novelty with long, well formed spikes and splendid crimson flowers, shaded salmon. .90 2.25 7.00

Spirea Aruncus (True Goat's Beard).  
**Queen Alexandra.** Light pink; good for forcing. .70 1.75 5.00

Spirea Aruncus (True Goat's Beard).  
**Rubens.** Rosy red; new and good; fine for forcing. .70 1.75 5.00

Spirea Aruncus (True Goat's Beard).  
**Saland.** Stems of a fine red color, growing over 6 feet high. A very decorative novelty. Award of Merit R. H. S. of Holland. 1.25 3.00 10.00

Spirea Aruncus (True Goat's Beard).  
**Vesta.** New, Tall, lilac-rose spikes: beautiful garden variety. 1.25 3.00 10.00

</table>
THERMOPSIS (False Lupine; Buffalo).

Three Doz. $1.60 $4.75 $35.00

THYMUS (Thyme).

The charming Mountain Thymes make a perfect, close, fragrant carpet on hot, dry, sunny banks where grass is difficult to establish... Excellent for carpeting patches of Spring-flowering bulbs.

Three Doz. 100

CITRIDIORUS. The golden yellow form of the well known "Lemon Thyme" $1.10 $3.25 $22.50

LAMINATUS (Woolly-Leaved). Woolly foliage with bright pink flowers 1.20 3.50 25.00

SERPULUM album. (White Mountain Thyme). Forms dense mats of dark green foliage and clouds of white flowers. 3 to 4 inches. June-July 1.60 4.75 35.00

SERPULUM coccinum. Plants become completely covered with brilliant crimson-scarlet flowers 1.20 3.50 25.00

SERPULUM splendens. A rapid, dwarf-growing variety; very hardy and excellent to cover bare spots, also good for the edge of walks or in the rock garden. 1.10 3.25 22.50

TRADESCANTIA (Spiderwort).

Virginica. Produces a succession of blue flowers all Summer. 2 feet $0.85 2.50 18.00

Virginica alba. A white-flowered form. $0.85 2.50 18.00

TRILLIUM (Wood Lily or Wake Robin).

Grandiflorum. Excellent plants for shady positions in the hardy border, or in a sub-aquatic position. Large, pure white flowers in early Spring. 12 to 18 inches. 1.50 10.00

TRITOMA (Red Hot Poker; Flame Flower; Torch Lily).

Pfitzeri. The free and continuous blooming qualities of this variety have made it one of the great bedding plants. Hardy if given protection, but the most satisfactory method of wintering is to bury the roots in sand in a cool cellar. In bloom from August to October, with spikes 3 to 4 feet high, and heads of bloom of a rich orange-scarlet producing a grand effect either planted singly in the border or in masses. 1.35 3.75 27.50

Quartiniana. A strong growing, thick-stalked variety, blooming late in May with flower cones 10 to 12 inches long. Orange-red at first, but yellow on bottom half as bloom matures. Perfectly hardy here; does not need protection. 1.35 3.75 27.50

Uvaria granulifera. 3 to 4 feet. The old-fashioned, late-flowering sort, with flowers rich red changing to salmon-pink. Needs slight protection. 1.35 3.75 27.50

TROLLIUS (Globe Flower).

Europaeus, Orange Globe. Desirable free-flowering plants, producing their giant bright yellow, buttercup-like blossoms on stems 1 to 2 feet high in May until August; a sheet of bloom in June and July. Excellent for naturalizing and woodland planting.

Choice Seedlings. Color range from pale yellow to deep orange; on strong stems 2 feet high. Wonderful as cut flowers, and good in moist locations. 1.35 3.75 27.50

Trillium Grandiflorum.

Excellent for naturalizing and woodland planting.
TUNICA (Coat Flower).

Saxifraga. A pretty tufted plant with light pink flowers, produced all Summer. Useful either for the rockery or the border. $0.85 $2.50 $18.00

VALERIANA (Valerian; Garden Heliotrope).

Coccinea. Showy heads of old rose flowers. June to October. 2 feet $0.85 2.50 18.00

Coccinea alba. White form of the above. $0.85 2.50 18.00

Officinalis (Hardy Garden Heliotrope). Produces showy heads of rose-tinted white flowers during June and July with delicious, strong heliotrope odor. 3 to 4 feet. $1.10 3.25 22.50

VERONICA - Speedwell

A family containing some of the most beautiful subjects for the hardy garden and rockery. Given a rich, well drained soil in an open situation in full sun, they will all thrive in an amazing manner. All the varieties listed are A-1, and splendid for the border or rock garden.

Amethystina "Royal Blue." Beautiful spikes of rich gentian-blue flowers. June and July flowering. Three Doz. $1.20 $3.50 $25.00

Erica. A heather-like Speedwell with delicate pink flowers. June-July. $1.20 3.50 25.00

Gentianoides. Beautiful variety with spikes of large flowers, palest blue edged deep blue, in June and July. 1 foot $1.35 3.75 27.50

Incana (candida). 1 foot. July and August. A white, woolly plant; flowers numerous; blue. Has good appearance, both in and out of bloom. Useful in rockery or border. $1.00 3.00 20.00

Longifolia subsessilis. 2 feet. July to September. One of the handsomest blue-flowering plants. Perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful blue flowers; fine for cutting and one of the best plants for the hardy border. $1.00 3.00 20.00

Orchidea. Very handsome variety from the Balkans. Grows four or five feet in height and produces a profusion of clear, blue flowers. $1.20 3.50 25.00

Pinnata. A variety from Russia, growing 2 to 3 feet high; has finely cut foliage, producing spikes of blue flowers in June and July. $1.20 3.50 25.00

Repens. 1 to 2 inches. May and June. A useful rock or carpeting plant with light blue flowers. Not very hardy, we recommend Rupestris in its place. $1.10 3.25 22.50

Rupestris. A fine rock plant growing 3 to 4 inches high. thickly matted, deep green foliage, hidden in early June under a cloud of bright blue flowers. $1.10 3.25 22.50

Rupestris flexuosa. Prostrate creeping plant forming a solid carpet of green which in late April and early May is covered with pale blue flowers 1 inch high. A-No. 1 rock plant. $1.20 3.50 25.00

Rupestris nana. Prostrate and creeping, forming a dark green carpet of shiny foliage which is covered with deep Gentian blue flowers in late April and early May. 1 inch high; one of the best early blue rock plants known. $1.20 3.50 25.00

Rupestris rosea. Has the same habit and flowers the same time as Rupestris nana. The flowers, however, are mauve-pink. $1.10 3.25 22.50

Splcata. 18 inches. June and July. Long spikes of violet-blue flowers. $0.85 2.50 18.00

Splcata alba. Long spikes of snowy white flowers. $0.85 2.50 18.00

Splcata rosea. 2 feet. June to September. Much branched variety with pink flowers. $1.00 3.00 20.00

Teucrium. Dwarf; spreading, of a dense growth; flowers blue. 6 to 12 inches. May-June. $1.10 3.25 22.50

Traversii. A very hardy variety of the beautiful shrubby Veronicae from New Zealand. Forms compact bushes of dark green foliage, bearing a profusion of pale mauve blossoms in late Summer. $1.20 3.50 25.00

True Blue. Literally covers itself with blossoms of intense blue. 3 inches. June-July flowering. $1.20 3.50 25.00

**VIOLA**

**VIOLA CORNUTA (Tufted Pansies).**

This is the best edging plant for the hardy border or garden; when properly cared for, these plants remain in full bloom from May until October. The great secret of their continuous bloom, though, is the fact that they must be sheared several times during the season, so that the flowers do not go to seed.

**WALLFLOWER (See Cheiranthus).**

**YUCCA (Adam's Needle).**

Filamentosa. Among hardy plants there is nothing more effective and striking for isolated positions on the lawn or on dry banks where few other plants thrive. It is also indispensable for the rockery. Its broad, sword-like, evergreen foliage and immense branching spikes of drooping, creamy white flowers, rising to a height of 6 feet, render it a bold and handsome subject wherever placed. Should be planted in Spring.

Viola Cornuta, White Perfection. All Viola Cornuta varieties are splendid as Summer flowering plants.
Hardy Water-lilies

The culture of Water-lilies is so simple that it might almost be said that "they just grow themselves." Their requirements are sun, water and rich soil. In deciding on a place for a natural water garden, one is naturally led to select a low spot. A stream of water running fairly close to this or near it can be readily dammed or diverted so as to form a pond. The digging up and grading of the ground to be flooded is the first consideration. It is not possible for everyone to have such a location, but almost everybody can have built or can themselves construct an artificial pool. In this event your location that is available, any location that is available, any location that is satisfactory, provided it is exposed to the full sun. Rather than have no water garden at all, the interested party can select the varieties in tubs or half-barrels sunk in the ground. The selection of Lilies suitable for tub culture is easily made, as the varieties suited for this purpose are indicated in this catalog.

**Soil.** The matter of getting the soil ready for the growing of aquatic plants is important. In preparing a piece of ground about to be flooded, it is well to dig into the soil the few inches of water that will stand a depth exceeding 2 or 3 feet. A continuous flow of water tends to keep the temperature in the pool low and must be avoided. After the pool is once filled it is only necessary to cover it with 1 foot of water, which furnishes an added charm to the plants in the pool itself. Such moisture-loving plants around the edge of the pool or pond will be avoided. After the pool is once filled it is only necessary to replenish that which evaporates.

### Size of Pool

The larger the water surface the better the results. A tub or half-barrel 2 feet in diameter will furnish a miniature pool. An artificial pool should be made as large as possible, and 3 feet deep. Where clay is very abundant, it is quite possible to make an excavation in such a manner as to have the water-tight. Make an artificial pool as natural as possible and avoid artificial lines and too apparent masonry. A generous planting of moisture-loving plants around the edge of the pool or pond will furnish an added charm to the plants in the pool itself. Such plants as are suitable for this purpose are listed in this catalog.

### Water. One foot of water over the soil is the most desirable depth for growing aquatic plants. Some will thrive in shallow pools, some will stand a depth exceeding 2 or 3 feet. A continuous flow of water tends to keep the temperature in the pool low and must be avoided. After the pool is once filled it is only necessary to replenish that which evaporates. All manure used must be thoroughly decomposed, to prevent fermentation when covered with water. Ground bone or bone meal is made by mixing three parts of rotted sod, compost, or good top soil with one part of cow manure or good barnyard manure. All manures used must be thoroughly decomposed before being used. The selection of Lilies suitable for tub culture is made by mixing three parts of rotted sod, compost, or good top soil with one part of cow manure or good barnyard manure. All manures used must be thoroughly decomposed before being used.

### Each

<table>
<thead>
<tr>
<th>Name</th>
<th>Description</th>
<th>Price</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Aurora.</strong> Changing hues in the blooms of this plant make it exceedingly interesting. When the flowers first open they are a creamy yellow tinted with rose, which changes to a dark red by the third day. A small plant, suitable for tub culture</td>
<td>$2.00</td>
<td></td>
</tr>
<tr>
<td><strong>Comanche.</strong> The largest and finest of the apricot tints. The blooms are perfect in form and 4 to 6 inches across. This variety is one of the finest for cutting and has so much to recommend it that we do not hesitate to say that it should have the first Nymphaea chosen for any pool.</td>
<td>$5.00</td>
<td></td>
</tr>
<tr>
<td><strong>Eugenia de Land.</strong> Flowers of deep rose-pink with long, narrow petals and yellow stamens, borne upon the surface of the water. The plants are strong growers and will produce flowers freely. This is easily the best of the N. odorata type.</td>
<td>$1.50</td>
<td></td>
</tr>
<tr>
<td><strong>Gladstoniana.</strong> Flowers of light pink, usually 6 inches in diameter, pure white in color; stamens are yellow and form a pleasing contrast with the petals. Plant requires a good deal of space as it is a very strong grower.</td>
<td>$1.50</td>
<td></td>
</tr>
<tr>
<td><strong>Gloriosa.</strong> This can well be called the most satisfactory Water Lily. It is the earliest to bloom and continues to flower until late Summer, producing more blossoms than any other sort. In the spring it is bright carmine which becomes darker as the season lengthens. The blooms are perfect in form and 4 to 6 inches across. This variety is one of the finest for cutting and has so much to recommend it that we do not hesitate to say that it should have the first Nymphaea chosen for any pool.</td>
<td>$5.00</td>
<td></td>
</tr>
<tr>
<td><strong>Hopatcong.</strong> Well known in southeastern United States, where it grows naturally in ponds. Flowers are pure white, quite large in size, generally 5 to 7 inches across. Produces blooms very freely.</td>
<td>$0.50</td>
<td></td>
</tr>
<tr>
<td><strong>Marina Chromatella.</strong> Medium sized flowers, 4 to 6 inches in diameter. Color of the bloom is bright yellow, with stamens somewhat deeper in color. The leaves are green, mottled with brown.</td>
<td>$1.50</td>
<td></td>
</tr>
<tr>
<td><strong>Morning Glory.</strong> The fragrance of the blooms, added to the beauty of the pale pink of the flowers, makes this one of the most attractive hardy Nymphaeas. It produces blooms most continuously.</td>
<td>$4.00</td>
<td></td>
</tr>
<tr>
<td><strong>Pink Opal.</strong> A new variety which has been cultivated for two or three seasons, yet has proved its value. The color is deep pink. The buds are almost round, opening into a flower with comparatively short petals, but the substance it has a distinct value for cutting.</td>
<td>$2.00</td>
<td></td>
</tr>
<tr>
<td><strong>Rose Arey.</strong> A wonderful variety of the Odorata type; very free-flowering, and strong growing. The flowers are large (last year we had flowers 8 inches across), and are sweetly scented. The color is clear carmine, which becomes darker as the season lengthens.</td>
<td>$2.50</td>
<td></td>
</tr>
<tr>
<td><strong>Rose Magnolia.</strong> The blooms are borne well out of the water, which make them desirable for cutting. They are usually 4 to 5 inches across and of a delightful shade of pink. Strong, vigorous grower.</td>
<td>$1.00</td>
<td></td>
</tr>
</tbody>

### CELASTRUS SCANDENS (Bittersweet or Wax Work).

<table>
<thead>
<tr>
<th>Each Doz.</th>
<th>100</th>
</tr>
</thead>
<tbody>
<tr>
<td>One of our native climbing plants, of rapid growth, succeeding in almost any situation, sun or shade, with attractive light green foliage and yellow flowers during June, which are followed in the Autumn with bright orange fruits, which usually remain on the plant throughout the Winter</td>
<td>100</td>
</tr>
</tbody>
</table>

## Clematis - Virgin’s Bower

### Flammula. Very beautiful climber; white flowers; wants a sunny exposure

<table>
<thead>
<tr>
<th>Each Doz.</th>
<th>100</th>
</tr>
</thead>
<tbody>
<tr>
<td>Montana Perfecta (Anemone Clematis). A strong, vigorous, extremely hardy variety, thriving under most adverse conditions. Its large, white flowers expand in April and May, and it is the best of our Spring climbers</td>
<td>100</td>
</tr>
</tbody>
</table>

### Montana rubens. Flowers rosy pink, with beautiful green foliage, shaded bronze

<table>
<thead>
<tr>
<th>Each Doz.</th>
<th>100</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paniculata. This hardy climber is one of the choicest and most satisfactory climbing, flowering plants. Of strong, rapid growth, with small, dense, cheerful green foliage, and pure white, deliciously fragrant flowers, in greatest profusion in August and September.</td>
<td>100</td>
</tr>
</tbody>
</table>

### LARG-EFLOWERING CLEMATIS.

No other climbing plant equals in attractiveness the beautiful large-flowering Clematis. Their requirements are somewhat different from most other plants, and proper conditions must be given to secure satisfactory results. They need rich, deep soil, perfect drainage, abundance of water and most important of all, they should be planted with the crowns three inches beneath the surface of the soil.

<tr>
<td>Mme. Villard. Bright carmine</td>
<td>100</td>
</tr>
<tr>
<td>Ramona. Double; pure white</td>
<td>100</td>
</tr>
</tbody>
</table>
EUONYMUS (Evergreen Bittersweet).

The trailing Euonymus are particularly desirable for their dense, evergreen foliage and extreme hardiness. Some varieties, on account of this taking the place of the English Ivy for wall covering, others that of the boxwood as an edging plant. Makes a splendid ground cover, and one of the best creepers for rockeries. Plants offered below are 4- to 5-year-old specimens.

- **Carrieri (Carrier's Evergreen Bittersweet).** A stronger grower than Euonymus radicans, with larger ovate green leaves. Half bush and half vine in habit of growth. If given support, it makes a very fine covering for a building or a wall. Very rugged and a rapid grower, which may be used for evergreen hedges, as it can be sheared into any shape...

- **Kewensis.** A variety with very small dark green foliage. Everyone who has seen this appreciates its value as a rock plant or ground cover. It grows close to the ground, and is one of the most valuable plants for under trees where grass will not grow.

- **Radicans.** Deep green foliage, useful for covering low foundation walls, or may be clipped the same as boxwood for an edging plant.

- **Radicans acuta.** A strong growing variety with long, narrow, dark green leaves veined with grey; excellent as a ground cover between fall shrubs.

- **Radicans variegata.** A beautiful small-leaved green and white variegated form of the same habit as the type.

- **Radicans vegetus (Evergreen Bittersweet).** A strong growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant for a good part of the winter. As an evergreen, absolutely hardy wall cover, this plant is unequalled.

ENGLISH IVY (Hedera).

The famous English Ivy with its familiar evergreen, glossy foliage is unfortunately not very hardy in this climate, and requires Winter protection where it is exposed to chilly winds on open walls. It can, however, be planted with perfect safety as a ground cover or as an edging to flower beds.

- **Helix (English Ivy).** 4-inch pots.

- **Helix gracilis.** Identical in habit with the English Ivy, but with dark green foliage not one-half as large; a most graceful vine. 4-inch pots.

POLYGONUM (Silver Lace Vine).

- **Auberti.** A splendid hardy climber of strong, vigorous growth, attaining a height of 25 or more feet, producing during Summer and Fall, great foamy sprays of white flowers, and making a well-established plant during its long period of flowering a great mass of bloom.

PUERARIA (Kudzu Vine).

The most rapid growing vine in cultivation, often attaining a growth of 40 feet in a single season. Especially desirable for immediately effect for dense shade, as its leaves are large.

- **Thunbergiana (Jack-and-the-Bean-Stalk).** Small pea-shaped, rosy purple flowers, heart-shaped leaves. It will grow anywhere. Field-grown plants.

WISTERIA.

Woody vines with tightly clinging habit, for pergolas, arbors, trellises, etc., especially ornamental in early Summer when they are resplendent with their large drooping clusters of fragrant blossoms.

- **Sinensis (Chinese Wisteria).** Bunches of pale lilac, deliciously scented blossoms in great profusion all over the vine. Strong plants.

- **Sinensis alba.** A white-flowered form of the type. Strong plants.
Hardy Shrubs and Azaleas
For the Hardy Border and Rock Garden

HARDY AZALEAS

The varieties here offered are the hardiest and most desirable for general garden planting; until thoroughly established it is beneficial to give them a heavy mulch of leaves during the Winter; and a loose covering of evergreen branches to protect them from the sun and drying winds during freezing weather.

AZALEA (Pinxter Flower; Swamp Honeysuckle).

Ameoa (Japanese Evergreen Azalea). A dwarf shrub with double purplish red flowers in May; is especially adapted for borders and rock gardens; needs some protection in northern latitudes. Should be planted in sheltered positions and will abundantly repay for any care given it. Each Doz. $2.00 $20.00

Hinodegiri. Bright fiery red flowers. Bushy plants 10 to 12 inches high. $2.00 $20.00

Hinomayo. A wonderfully pleasing shade of delicate rose-pink. Bushy plants 10 to 12 inches high. $1.75 $18.00

Mollis (Japanese Azalea). Of dwarf habit; resembles rhododendrons; good foliage; flowers in all shades of red, yellow and orange; perfectly hardy, thriving in sunny positions anywhere. Excellent for mass planting. It must not come in contact with barnyard manure. Each Doz. $1.50 $15.00

Yodogawa. Large, semi-double, lavender-pink flowers; the earliest to bloom. Bushy specimen plants. 24 inches high. $5.00

AZALEA: Varieties Used With Herbaceous Plants in Hardy Plant Borders and Rock Gardens.

The few varieties listed below are used to mix with hardy plants in borders and rock gardens.

BUDDLEIA (Summer Lilac).

Parquhart (New). A low-growing pendulous, spreading shrub, with rich green foliage and silvery reverse, bearing in late Summer long racemes of purple flowers. Each Doz. $0.75 $5.00 $40.00

Variabilis magnifica (Butterfly Bush). This is properly a shrub, but the top usually freezes back, and new growth starts from the root like other perennials. Plants grow three to four feet and are covered with long racemes of lilac-like flowers in July. The best location is in good, rich, well drained soil in a sunny situation. Each Doz. .75 5.00 40.00

CARYOPTERIS (Blue Spirea).

Maestacanthus. A handsome hardy perennial; grows about 3 feet high and produces rich lavender-blue flowers in great profusion the whole length of the branches. A valuable plant either for bedding or pot culture, blooming continuously from early in September until cut by frost. Each Doz. .75 5.00 40.00

COTONEASTER (Rock Spray).

Horizontalis (Prostrate Cotoneaster). A low shrub with almost horizontal branches. Native of China. Leaves dark green, about half an inch long; flowers pinkish white; fruit bright red; attractive in rockeries. A most desirable ground cover, and should be largely planted. Cannot be transplanted unless from pots. Strong, 5-inch pot plants. Each. 1.25 10.00

DAPHNE (Garland Flower).

Cheorum. Handsome dwarf sub-shrubs; excellent for planting near front of shrubbery, with odorous pink flowers and handsome foliage. Each. 1.50 15.00 110.00

DESMODIUM (Tick Trefoil).

Penduliflorum. An exceedingly graceful shrublike plant covered with purplish red flowers in Summer time. Strikingly beautiful. Each. .75 5.50 45.00
ERICA (Heath).

The Heaths are compact, low-growing plants, and as such are extremely useful for rockeries. The small foliage is densely arranged around the wiry little stems, and either when in full bloom or in midwinter makes a very pretty picture. Give some protection in the first Winter. Semi-shady location. All our Ericas are strong, bushy plants.

Each Doz. 100

Elna alba (White Heather). The nodding white flowers are the only diversion from the Vulgaris; a pleasing contrast. Big clumps $1.00 $10.00

Nana compacta. Dwarf and compact; pink. 8 inches. Big clumps 1.00 10.00

Vulgaris (Scotch Heather). A dense-growing shrub, with erect branches, covered with short, closely adpressed leaves. The pretty, bell-shaped flowers occur in great profusion toward tops of the shoots and are a pretty rosy color. Big clumps 1.00 10.00

HYPERICUM (St. John's Wort).

Calycinum (Aaron's Beard). Rapidly growing sub-shrub and ground cover in sun or shade, with golden yellow flowers. 1 foot. July-August 70 5.00 40.00

Henryi. The same as Moserianum, though slightly more upright in growth and much harder and better suited for cold climates .60 4.75 35.00

Moserianum. A most desirable border plant, of free and graceful habit, producing long, slender, much branched stems, leafy to the base and all drooping towards the ends, apparently from the weight of the flowers and buds, although the flowers face so none of their beauty is lost. It is marvelously free-flowering, of large size, measuring from 2 to 2½ inches in diameter; in color a rich golden yellow, rendered still more effective by the numerous yellow stamens and crimson anthers, and blooms continuously the entire season. 2 feet .50 4.00 30.00

VITEX (Chaste-tree; Hemp-tree).

Macrophylla. In general habit similar to V. Agnus Castus, but much stronger in all its parts, the foliage being larger while the trusses of lavender-blue flowers are fully double the size. It blooms from July to September; as popular as the Butterfly Shrub, to which we consider it superior 1.00 10.00

HEDGE PLANTS

BERBERIS (Barberry).

Thunbergi (Japan Barberry). Where a dwarf deciduous hedge is wanted, nothing equals this beautiful Barberry. Requires but little pruning to keep in shape. The leaves are small, light green, and towards Fall assume rich, brilliant colors, the fruit or berries becoming scarlet. Absolutely hardy. Plant 12 to 15 inches apart.

Extra strong, 3-year-old plants. 24 to 30 inches high $3.00 $20.00 $190.00

Strong, bushy, 3-year-old plants. 18 to 24 inches high 2.50 18.00 165.00

BOXWOOD.

We are glad to be able to offer this valuable shrub again and at a price everyone can afford. The stock we offer is bushy and wide, excellent for edging walks or beds. Contrary to the usual idea, Boxwood are hardy and will stand a temperature of 10 below zero without any damage, providing the plants are protected with a little lath screen, admitting air and light, but giving enough shade so that the sharp sun during the months of December, January and February, does not burn the foliage. Grows in any soil. Plant 4 inches apart.

Boxwood Edging. We offer fine, bushy plants as follows:

4 to 6 inches high $2.25 $16.00 $150.00

8 to 10 inches high 2.50 20.00 200.00

BOX BARBERRY.

The new dwarf or miniature Berberis used for low edging around beds in formal gardens or for dwarf small edges along garden paths. Requires little pruning and is the best dwarf edging to be used in localities where Boxwood is not hardy and is less expensive.

Box Berberis. Bushy plants.

8 to 12 inches $4.00 $30.00 $275.00

12 to 15 inches 5.00 40.00 375.00
UPON the arrival of the plants, open the bundle in a sheltered place and soak them thoroughly, or immerse the plants in a pail or tub of water for a few hours. After removing them from the water, cut away broken or damaged roots. Take care not to expose the roots to sun and wind.

The ground should be thoroughly prepared, breaking the subsoil. To do this, it is necessary to dig 15 to 18 inches deep and to mix a liberal supply of well-rotted manure or other fertilizer with the soil. A little air-slaked lime will help sweeten it.

Dig a hole large enough to accommodate the roots and spread them on the bottom of the hole, in the same position as you would place your hand on a flat surface. When filling it, lift and shake the plant lightly in order that the soil may sift between the roots, and after this operation, firm with the hands and feet. Be sure that the lower parts of the lower branches are at least 2 inches below the surface of the soil.

(Picture No. 1.) Do not plant on a mound, the surface should be level, or a slight depression left around the plant. Cut back the branches within 2 to 4 inches of the surface of the ground, leaving the stronger branches 4 inches high above the soil. (Pictures 2 and 3).

In cultivating Roses, the soil cannot be kept too tight at the roots and too loose on the surface during the growing season.

The branches of Climbing Roses should be cut back to 18 to 24 inches. A few flowers will develop the first year, by using this idea, although our method is to cut back the Climbers, when they are being transplanted in our Nursery, to within 2 to 4 inches of the main stem of the plant. Climbing Roses pruned this way will eventually give most satisfactory results.

In Fall, just before cold weather sets in and frost enters the ground, mound the soil around the branches of the plant at least 10 inches high, and cover with a little straw or some other loose litter. This will prevent the wind and sun from drying the branches during the Winter. (Picture 4).

Dormant Roses are supplied until May 1st. From then on we use large field grown roses in 6 inch pots enabling you to prolong planting until June 1st.
Hardy Everblooming Hybrid Tea Roses

Under this heading we offer only the very best and most popular, well tried varieties of Hybrid Tea Roses, with the majority of which every lover of the Rose is familiar. We recommend this collection for general planting to the amateur who wishes the finest varieties, and who is desirous of a supply of extra choice flowers to cut throughout the season. There is not one individual sort which we cannot endorse as possessing superior merit; all having been thoroughly tested.

Betty Uprichard. One of those delightfully contrastive types; the outside a blend of deep toned carmine with coppery orange; the interior being mostly a delicate salmon-pink. Strong garden variety; sweetly fragrant.

Caroline Testout. One of the most popular and valuable bedding varieties; large, full, globular flowers of bright satiny rose, with brighter center, very free and fragrant. The Rose that made Portland, Oregon, famous as the Rose City.

Columbia. This beautiful Rose is not only one of the most popular Winter cut flowers, but has also proven itself a good bedding or garden variety. It is of strong, vigorous habit and exceptionally free blooming. The flowers, of good size, are perfect in form, both in bud as well as when fully expanded. Color a most pleasing shade of rose-pink and delightfully fragrant.

Charles K. Douglas. An English Rose of vigorous, upright growth, and liberal, fragrant bloom, which is of delightful form. Color a flaming scarlet flushed with velvety crimson.

Crusader. Large, massive, high pointed buds and full double flowers on stiff stems; fine for cutting; color a rich crimson; particularly good in late Summer and Fall.

Duchess of Wellington. The most popular yellow garden Rose. Intense saffron-yellow, stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers are fairly full, with large petals, great substance, delightfully fragrant and very free flowering.

Earl Haig. A type rare among red Roses, and so of obvious interest to the selective buyer. Outside of its fragrance; freedom and unfading cherry-crimson color; the thick, rolling petalage, and permanent high-built center, fix its superiority over less compact varieties. A splendid associate with the white "Edel."

Elvira Aramayo. A flaming, arresting color newly applied to Roses as "Indian red." This seems to be a unique association of orange-carmine, with tones of madder, salmon and pink. The buds are long and pointed, plentiful, opening into large flowers of cactus shape with some quilled petals; a showy garden type, with straight stems and bushy growth.

Edel. An enormous bold, stately, well built flower of great depth, quality and finish. Color white with the faintest ivory shading towards the base, passing to a pure white. A fine grower with uniform, stout habit. Very free flowering, opening well in all weather, delightfully scented. Considered the finest white Rose yet introduced.
HARDY EVERBLOOMING HYBRID TEA ROSES—Continued

Eldorado (Land of Gold). In this we have an exact counterpart of Miss Lolita Armour, in the large sized flowers of distinct formation, vigorous growth, and free-flowering habit and fragrance, but in color it is of the golden yellow that is peculiar to the climbing Rose Marechal Niel, with the base of the petals slightly tinted red. $1.25 $15.00 $126.00

Etoile de France. The strong, upright bushes have beautiful bronze-green foliage, which is not subject to insect attack. The bushes are blooming constantly, producing large, massive, deep, full cup-formed flowers on magnificent, long, stiff stems of a clear red or velvety crimson. 1.00 11.00 90.00

Francis Scott Key. Very large, double flowers of a rich crimson-red; a strong, sturdy grower and free bloomer that always attracts attention; particularly good in the Fall. 1.00 11.00 90.00

General MacArthur. A well known favorite, and one of the best all-around bedding Roses in our collection; it is one of the earliest and most perpetual flowering sorts; its flowers are of good form, of a warm, rich crimson-scarlet, and delightfully scented. 1.00 11.00 90.00

Golden Emblem. Beautifully formed long buds opening up into fine, fragrant, golden flowers. The color is rich, a yellow cadmium toning to sunflower yellow. A splendid yard and garden type, blooming profusely and continuously throughout the season. 1.00 11.00 90.00

Gorgeous. Flowers large, full and exquisitely formed; of an amber-yellow, veined with reddish copper, a most striking and novel color; it is of strong, vigorous habit. 1.00 11.00 90.00

Gruss an Teplitz. This is a Rose for everybody, succeeding under the most ordinary conditions. In color it is of the richest scarlet, shading to a velvety crimson; very fragrant; a free, strong grower and in bloom all the time. 1.00 11.00 90.00

H. V. Machin. A gorgeous flower of large size, in color an intense rich scarlet-crimson, carried on rigid, sturdy stems with ideal foliage. A vigorous, strong growing Rose for the garden. 1.00 11.00 90.00

Hoosier Beauty. Acknowledged to be one of the best high colored varieties, an intense, rich dazzling crimson-scarlet; beautiful, well shaped, long buds and good sized, full flowers and deliciously scented. Strong, 2-year-old plants. 1.00 11.00 90.00

Jonkheer J. L. Mock. One of the best bedding varieties. The flowers, which are produced with the greatest freedom on long, stiff stems, are of large size and of perfect form, of a deep imperial pink, the outside of the petals silvery rose-white. 1.00 11.00 90.00

Juliet. Globular, golden buds, opening to a full, rather cupped bloom of glowing pink, strongly contrasted with old gold on the outer surface of the petals. Plant of strong Hybrid Perpetual habit, with curiously curling foliage. 1.00 11.00 90.00

John C. Mensing. A lovely shade of deep, bright rose-pink, favoring the Ophelia type in construction and habit. An excellent forcing kind with long buds, perfect flowers and sweet fragrance. May be styled a “glorified” Mad. Butterfly. 2.00 24.00

Kaiserin Augusta Victoria. This splendid Rose should be in every collection. In color it is a soft pearly white, tinted with just enough lemon in the center to relieve the white; remarkably fragrant, beautifully formed flowers on long, graceful stems; a strong, free, healthy grower. 1.00 11.00 90.00
HARDY EVERBLOOMING HYBRID TEA ROSES—Continued

**Killarney.** This is the best known of Dickson’s famous Irish Hybrid Tea Roses, and is one of the most popular of our garden Roses. In color it is a sparkling brilliant pink; the blooms are large, the buds long and pointed, the petals very large and of great substance. $1.00 $11.00 $90.00

**Killarney Brilliant.** A sport from Killarney but more intense in coloring; a rich glowing shade of rosy carmine. It is also larger and more double than its parent. 1.00 11.00 90.00

**Killarney White.** A duplicate of the charming pink Killarney, with flowers white as snow. 1.00 11.00 90.00

**Lady Alice Stanley.** A gem that everyone admires; it is absolutely perfect in every way: form, color, size, freedom of bloom and fragrance are all fully developed; in color it is a beautiful shade of coral-rose, the inside of the petals shading to flesh pink with deeper flushes. 1.00 11.00 90.00

**Lady Ashtown.** A very free-flowering variety, producing fine blooms throughout the season. The flowers are large and of a delicate soft rose color, shading to yellow at the base. 1.00 11.00 90.00

**Lady Killington.** A beautiful coppery shade of apricot yellow, beautiful in the bud; a strong, vigorous grower and very fine flowering. 1.00 11.00 90.00

**Lady Pritie.** Deep copper or reddish salmon; inside of petals apricot-yellow, flushed fawn and copper; an ideal fragrant variety admired by everyone. Very free flowering. 1.00 11.00 90.00

**La France.** Of all the Hybrid Teas there are none which excel the La France Roses in all the good points necessary to a good Rose. Practically hardy everywhere; splendidly adapted for general planting and deserves a place in every flower garden of America. Exceedingly sweet and handsome flowers and buds large size; color lovely shade of silvery pink, tinged with crimson; fragrance delicious; flowers very full and beautiful. 1.00 11.00 90.00

**Laurent Carle.** Produces its large, deliciously scented, brilliant carmine flowers throughout the season, nearly as good in hot, dry weather as under more favorable weather conditions. A vigorous grower and as hardy as a Hybrid Perpetual. 1.00 11.00 90.00

**Los Angeles.** This is, by all odds, one of the finest Roses ever introduced. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink, toned with coral and shaded with translucent gold at the base of the petals. In richness of fragrance it equals in intensity the finest Marechal Neil. The buds are long and pointed, and expand into a flower of mammoth proportions, while the beauty of form and ever-increasing wealth of color is maintained from the incipient bud until the last petal drops. 1.00 11.00 90.00

**Luxembourg.** A fine large, fully double rose of vigorous branching habit, and unusual freedom for the color which is a rich golden yellow. 1.00 11.00 90.00

**Mme. Alexandre Dreux.** An excellent golden yellow of deep tone, with fully shapely flowers on erect branches. 1.50 18.00 175.00

**Madame Butterfly.** A symphony of white, bright pink, apricot and gold. Compared with Ophelia, this derivation is fuller-petalled, more prolific, and of greater color appeal. The buds are a rich Indian red, yellow at base. 1.00 11.00 90.00

**Mme. Edouard Herriot.** The Daily Mail Rose. In color its buds are coral-red, shaded with yellow at the base; the open flowers of medium size, semi-double, are of a superb coral-red, shaded with yellow and bright rosy scarlet passing to shrimp-red. 1.00 11.00 90.00
HARDY EVERBLOOMING HYBRID TEA ROSES—Continued.

**Mme. Marcel Delaney.** Tender rose color shaded with hydrangea-pink. Flowers large, full and fragrant, borne with satisfying freedom ...........................................$1.25 $15.00 $145.00

**Mrs. Aaron Ward.** A remarkably floriferous variety of strong, vigorous, but compact growth; the flowers, which are of splendid form, full double, are equally attractive when grown in the bud state; in color a distinct Indian yellow, shading lighter towards the edges ...........................................$1.25 $15.00 $145.00

**Mrs. Prentiss Nichols** (R. Scott & Sons, 1923). Massive blooms of dark pink; moderately fragrant. Stiff, robust growth, splendid foliage, and fairly free flowering. It is one of the most interesting of new American Roses. Foliage is superb; flowers imposing ...........................................1.00 $11.00 $90.00

**Mrs. Wakefield Christie-Miller.** As a pink bedding Rose there is none better, and particularly so for massing. The flowers, which are of large size, remain perfect on the bushes for a long time, and are produced very freely; they are of a bright pink color with lighter shading; the plant is vigorous and free ...........................................1.00 $11.00 $90.00

**Mrs. Chas. Bell.** Soft shell-pink with a salmon background. It retains its full globular shape an unusually long period ...........................................1.00 $11.00 $90.00

**Mrs. H. R. Darlington.** Very shapely buds and flowers of large size and full petalage, waxy cream-white tinctured with yellow at base; fragrant, free blooming. Plant growth upright, branching and vigorous ...........................................1.50 $18.00 $175.00

**Mrs. Bedford.** One of the most distinctive and desirable Roses of recent introduction. Bright apricot-orange; one of the most lovely of this tone of color; an upright grower with holly-like mildew-proof foliage. The flowers are substantially built, perfect in form, very free-blooming and sweetly scented; a superb bedding Rose ...........................................1.50 $18.00 $175.00

**Milday.** (H.T.). (Pierson, 1913). Crimson-scarlet. Color similar to Richmond. Flowers large, full and well formed; carried on stiff stems ...........................................1.00 $11.00 $90.00

**Miss Lolita Armour** (Howard & Smith, 1920). The coloring of this variety is difficult to describe, and is absolutely distinct. The flowers are of large size, full double, with petals of great substance and delightfully fragrant. As the flowers expand they develop to a deep coral-red with a golden, coppery red suffusion, the base of the petals a rich golden yellow with coppery red sheen. The plant is a strong, vigorous grower, and very free flowering. At the great Bagatelle Gardens in Paris, France, this was singled out in 1921 for the highest prize, a Gold Medal, while at the Test Garden of the American Rose Society at Portland, Oregon, it was awarded the Silver Medal and Bronze Certificate of the City of Portland. Strong, 2-year-old California grown plants ...........................................1.25 $15.00 $145.00

**Ophelia.** A variety which has made a record for itself that qualifies it to be classed with the very best; a Rose that is admired by everyone; its flowers are held erect on long, stiff stems, are of perfect form, good size, and of a most pleasing, delicate tint of salmon-flesh, shaded with rose; very floriferous ...........................................1.00 $11.00 $90.00

**Premier.** The blooms are immense, often measuring 5 and 6 inches across the open flower; buds long, full and pointed. Growth remarkable, being strong and sturdy, each bloom borne on heavy canes, almost thornless and 4 and 5 feet long. Foliage dark, glossy green, free from disease or insects. Color is deep rose-pink, without shadings and retains its color in the open flower. Highly fragrant. 2-year plants ...........................................1.00 $11.00 $90.00

**Radiance.** An ideal bedding Rose of American origin that continues to produce its large flowers throughout the most unfavorable hot Summer weather when frequently many other varieties fail; it is a brilliant carmine-pink, with salmon-pink and yellow shadings at the base of the petals; truly a Rose for every garden ...........................................1.00 $11.00 $90.00
## BABY RAMBLER ROSES

A type of Roses which is deservedly very popular for bedding purposes. They form shapely, compact, bushy specimens, most of them growing about 18 inches high, producing from early in the season until severe frost, immense trusses of small flowers. Pruning is not necessary; simply remove the past season's flower stems.

### Ellen Poulsen
- A most floriferous dark, brilliant pink, very sweetly scented.
- 75c each; $9.00 per doz.; $90.00 per 100.

### Sensation
- Enormous scarlet-crimson blooms of fine deep form; double, 30 to 35 petals of great size and substance; very sweetly scented. Plant is strong and very active in sending up new blooming shoots.
- 1.25 each; 15.00 per doz.; 145.00 per 100.

### Orleans
- One of the best; flowers of comparatively large size of brilliant geranium-red, becoming suffused with rose as the flowers mature, and large, white center; a very pretty color combination.
- 75c each; $3.00 per doz.; $60.00 per 100.

### Sensation, continued.

HYBRID PERPETUAL ROSES

The varieties listed below are unquestionably the best that can be selected in the Hybrid Perpetual class, which, before the development of the Hybrid Tea, was the most popular type for garden planting, and even now they dare not be overlooked, but should be used extensively in conjunction with the other sorts, and especially so in localities where the hardiness of the Hybrid Tea varieties has not been established. The collection here offered embraces as complete a range of colors as it is possible to bring together in such a number of plants, with freedom of flowering, perfect form, fragrance, hardiness and general excellence.

**Capt. Hayward.** Red with deep center; the flowers large, globular and borne on long stems ......... $0.80  $9.00  $75.00

**Eugene Furst.** Beautiful, velvety crimson, with distinct shading of maroon. One of the richest, showiest and freest blooming of the reds .......... 90  10.00  75.00

**Frau Karl Druschki.** This is the ideal hardy white Rose; pure in color, perfect in form, strong grower and remarkably free flowering; superb in every way .......... 90  10.00  90.00

**George Arens or Pink Frau Karl Druschki.** This is a pink, or rather a tender rose colored form of the popular white Frau Karl Druschki, possessing not only the exquisite form, large size, and remarkable free-flowering habits of its parent, but in addition to this, it is also highly perfumed; a Rose worthy of a place in every garden .......... 50  9.00  75.00

**Mrs. John Laing.** Soft pink, of beautiful form; exceedingly fragrant and remarkably free flowering; always does well and stands very close to the top among fine Roses .......... 50  9.00  75.00

**Paul Neyron.** Dark rose of enormous size; perhaps the largest of all .......... 50  9.00  75.00

**Prince Camille de Rohan.** Dark velvety crimson-maroon, shaded scarlet; a magnificent dark Rose .......... 50  9.00  75.00

**General Jacqueminot.** Brilliant scarlet-crimson; an old favorite and one of the best known Roses in cultivation; does well everywhere .......... 50  9.00  75.00

**Mary Wallace**

Originated at the Maryland Station of the Department of Agriculture by the late lamented Dr. W. Van Fleet. The Department describes it as a pillar Rose, making a fine, strong, self-supporting plant 6 to 8 feet high, with large, glossy foliage, blooming with great freedom in Spring and bearing a considerable number of fine buds in Summer and Fall. Flowers very large, generally exceeding 4 inches across; well formed, semi-double, of a bright, clear rose-pink with salmon base to the petals. 80c each; $9.00 per doz.; $75.00 per 100.

**Rosa Hugonis**

This species, recently introduced from China, is unlike any other Rose. It is of shrublike habit of growth and naturally forms symmetrical bushes about 6 feet high, and the same in diameter, and while not suited to plant in the Rose border, it is an invaluable subject when planted in connection with other shrubs or single specimens in the garden. Its delicate yellow single flowers are produced on long, arching sprays early in May, every branch of the previous season's growth becomes lined on both sides to the very tips with these attractive flowers, and after it has finished flowering it remains an attractive decorative bush for the balance of the season; perfectly hardy. Strong, 2-year-old plants, $1.00 each; 11.00 per doz.; $90.00 per 100.

**New Hybrid Rugosa Rose**

F. J. Grootendorst

This is a new type of Rose, which might properly be called a Rugosa Baby Rambler, being a cross between Rugosa and the crimson Baby Rambler. Imagine a shrub-like Rugosa Rose covered with trusses of crimson Baby Rambler Roses and you will have a conception of this new hybrid variety. It is not a Rose that you want to plant in with your bed of Hybrid Tea and Hybrid Perpetual Roses, but is valuable to plant as an isolated specimen or in a mass in an exposed position or among shrubs in the shrubbery border or use it for an everblooming hedge for which purpose it is admirably adapted. It is absolutely hardy and continues in bloom until the fall. Strong, 2-year-old plants, $1.00 each; $11.00 per doz.; $95.00 per 100.
Hardy Climbing and Rambler Roses

Climbing Roses require no pruning in the Spring beyond the cutting out of very old or dead wood, and the shortening of the laterals and long canes to make the growth conform to the space to be covered; but a severe pruning in July, directly after they have finished flowering, is beneficial. Cutting away at that time all old flowering wood will encourage a vigorous growth, which will give an abundance of flowers the following season. We offer on this page a selection of twelve of the most modern Hardy Climbing and Rambler Roses.

American Pillar. A single-flowering variety of great beauty. The flowers are of large size, 3 to 4 inches across, of a lovely shade of pink, with a clear white eye and cluster of yellow stamens. These flowers are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten. 75c each; $9.00 per doz.; $60.00 per 100.

Climbing American Beauty. Its name is somewhat misleading, but it is one of the best climbing roses. A very vigorous grower, frequently making shoots from 10 to 12 feet long, and good sized flowers for a climbing Rose that blooms so freely. Color a pleasing rose-pink; of splendid form; good substance. 75c each; $9.00 per doz.; $60.00 per 100.

Dorothy Perkins. Soft shell-pink; flowering profusely in large clusters. Very fragrant and lasting. A grand Rose in every way. 75c each; $9.00 per doz.; $60.00 per 100.

Dr. Van Fleet. A Rose, which on account of its dainty color and exquisitely shaped buds and flowers, appeals to everyone. The long, pointed buds are of a rich flesh-pink on stems 12 to 18 inches long. Splendid for cutting. 75c each; $9.00 per doz.; $60.00 per 100.

Excelsa. (H.W.). This sort is also known as “Red Dorothy Perkins,” and carries the glossy, varnished appearance of foliage shown by that sort, assuring a constant shade all Summer wherever used. The flowers of scarlet-crimson are borne in large trusses, are very double and large, and are produced with the greatest profusion. It is the most valuable sort of its type. 75c each; $9.00 per doz.; $60.00 per 100.

White Dorothy Perkins. (H. W.). A pure white climber, identical with Dorothy Perkins except the color. Without doubt the best white climber. 75c each; $9.00 per doz.; $60.00 per 100.

Flower of Fairfield. (C.P.). Also called the “Everblooming Crimson Rambler.” Combines the beauty of the well known Crimson Rambler with a continuous blooming habit, the new growth bearing large clusters of crimson blooms through the Summer continuously. Be sure to include this sort in your selection. 75c each; $9.00 per doz.; $60.00 per 100.

Hiawatha. Small flowers; deep ruby-crimson, accentuated by a white eye, uniquely borne in long trails of 40 to 50 blooms. 75c each; $9.00 per doz.; $60.00 per 100.

Paul’s Scarlet Climber. No other Rose, in any class, can compare with it for brilliancy of color, which is a vivid scarlet. Flowers are semi-double, very freely produced in clusters of from 3 to 20 flowers each on much branched canes. It is of strong climbing habit and perfectly hardy. One of the most popular climbing Roses. 75c each; $9.00 per doz.; $60.00 per 100.

Roserie. Of same habit of growth and flowering as Tausendschoen, but of a deeper and more even shade of cerise-pink or carmine; a strong, vigorous grower and free bloomer. 75c each; $9.00 per doz.; $60.00 per 100.

Silver Moon. Different from all other Roses, with beautiful semi-double flowers, 4½ inches and over in diameter; pure white in color; petals of great substance, beautifully cupped, forming a Clematis-like flower. The large bunch of yellow stamens in the center adds to its attractiveness. 75c each; $9.00 per doz.; $60.00 per 100.

Star of Persia. A brilliant new Rose with flowers on the order of the lovely old Harrison’s Yellow; semi-double, bright yellow, and about 3 inches across. It makes a striking low climber or pillar Rose from 8 to 10 feet high, bursting into showers of sparkling bloom in June. It does not fade and the flower trusses last several weeks. $2.00 each.
Amaryllis Hippeastrum
(Tender—Indoor Only)

Giant American Hybrid. There is nothing that will give the amateur greater pleasure for the window garden than these giant-flowering Amaryllis that are so easily managed. The strain we offer is the finest that has ever been produced in this country; strong bulbs throwing vigorous stems with from four to six gigantic blooms of the most perfect form, ranging in color from pure white grounds with varied markings of rose, red and crimson to the richest self-colors as scarlet, crimson, bright red, cherry, and almost maroon. We can supply in mixture only. Large, strong bulbs. 75c each; $7.50 per 10; $60.00 per 100.

Begonias, Tuberous-Rooted

This charming class of Begonias is perhaps the handsomest of all Summer-flowering, tuberous-rooted plants, and deserves even greater popularity. Particularly useful for planting in porch or window boxes in a semi-shady position. Their culture is of the simplest, and with the least regard for their requirements they will keep in beauty with an abundance and brilliancy of bloom not equalled by any other class of plants.

Callas

Golden Yellow (Richardia Elliottiana). This is the best of the Yellow Callas; its flowers being as large as the popular white variety, but of a rich, lustrous, golden yellow, of velvety texture. The foliage is dark green, with translucent creamy white spots, which add much to its beauty. Strong bulbs. 40¢ each; $4.00 per doz.

Cannas, Orchid-Flowered

This set contains ten well-tried varieties, all of which are found worthy of being considered as leaders in their respective types and colors.

Cheerfulness. Its name aptly describes the lively beauty of this charming variety. Bright fiery deep orange florets which are broadly bordered golden yellow. The large trusses are carried very erect over the massive foliage and are produced in great profusion. 3½ ft. $0.75 $2.50 $18.00

Gladiator. Deep yellow, freely dotted with red, a popular bedder. 4½ ft. 75¢ 2.50 18.00

Lahnbeck. Rosy carmine with scarlet suffusion and narrow golden yellow border. 4 ft. .75 2.50 18.00

King Humbert. The most popular of Cannas. Great orange-scarlet flowers surmounting beautiful vigorous deep bronze foliage. 5 ft. .75 2.00 15.00

Statue of Liberty. An extremely vigorous grower with bronze foliage and large orange-scarlet flowers. 8 ft. .75 2.50 18.00

The Ambassador. Appropriately referred to as the “Bronze Leaved President.” A wonderfully vigorous free-flowering brilliant cherry-red. 8 ft. .75 2.50 18.00

The Gem. The immense trusses of flowers are borne on upright branching stems well above the foliage and are of deep cream or straw yellow color dotted with carmine; very attractive and unusually refined. 4 ft. .75 2.50 18.00

The President. The greatest red Canna, possessing very desirable quality. Of immense size, unsurpassed in vigor, penetrating color, and a free bloomer. 5 ft.. .75 2.50 18.00

Wyoming. Bronze purple foliage, immense spikes of massive orange flowers. 6 ft. .75 2.00 15.00

Yellow King Humbert. A sport from the bronze leaved red flowering King Humbert. Flowers are yellow dotted orange-scarlet. The occasional reversion of a stalk of foliage and flowers to the typical King Humbert makes a bed of this variety very interesting. 4½ ft. .75 2.00 15.00

Amaryllis Hippeastrum.

Canna, King Humbert.
Gladioli

Only the Finest Varieties are Herewith Offered.

Doz. 100

Albania. Flower wide open, four inches and over in diameter; broad petals with rounded tips and beautifully crimped edges. The background of the purest glistening white, with very faint pink mottling, which is noticeable only on close observation. Five flowers are open at a time; a splendid keeper. Height, 4 feet; 14 to 16 flowers to the spike; very healthy, vigorous grower $2.00

Anna Eberius. Deep purple, shading into very deep bordeaux center. Large blooms, many open at one time; well placed on tall spike. A grand variety 1.00

Anthony B. Kunderd. Tall, large, intensely ruffled flower of delicate, deep cream color, overspread finest blush pink. Entire lower petals beautiful primrose cream flushed pink at edges. Fine variety 2.00

Baron Joseph Hulot. Rich, deep indigo; medium sized flowers; tall spikes 1.50

Byron L. Smith. One of the best varieties; most refined lavender-pink on white ground. Color equal to a very choice Cattleya orchid; many blooms open at one time; effective and fine as a cut flower 1.50

Crimson Glow. Very large flowers, wide open, of the finest form, exceedingly well placed on very tall spike; a beautiful glowing crimson, of a deep tone; earliest and most beautiful of all in this color 1.50

Evelyn Kirtland. The flowers, of strong substance, are a fine shade of rosy pink, darker at the edges, fading to shell-pink at the center, with brilliant small scarlet blotches on the lower petals. Very large flower spike; straight but slender and bending gracefully 1.00

E. J. Shaylor. A beautiful pure deep rose-pink, ruffled variety; awarded certificate of merit by the Royal Horticultural Society of England; a tall, very strong plant with large blooms; very choice 1.50

Flora. A golden yellow variety of great excellence, being a free, strong grower with splendid spikes and flowers of large size 1.50

Golden Measure. The incomparable true golden yellow; without question the most magnificent Gladiolus under cultivation; gigantic spike carrying wide open flowers of fine form. Excellent in every way. Rating 96 out of a possible 100 2.00

Herada. Blooms of immense size on tall, straight spikes, pure mauve-pink, glistening and clear. Unusually striking and attractive 1.50

Le Marechal Foch. This might briefly be described as an improved America, having the same soft flesh-pink color, but with much larger blooms and coming into flower two weeks earlier. Of unusually strong, vigorous growth with splendid straight, well-filled spikes 1.00

Louise. The lavender queen among the Gladioli. Velvety wine-colored blotch toward the center. Large, well opened, orchid-like flower 1.50

Mrs. Dr. Norton. Exceptionally and delicately beautiful color; pale flesh pink with primrose center. Tinted rosy on lower petals 1.00

Mrs. Francis King. A striking shade of light scarlet or flame color; one of the most effective 1.00

Mrs. Frank Pendleton. All experts agree that this is one of the finest varieties yet introduced. The flowers are of largest size borne on strong straight spikes. In color a lovely salmon-pink with brilliant deep red blotches in the throat. A color combination rivaling many of the finest orchids in its richness; exquisite in every way 1.00

Mrs. Leon Douglas. Flowers of enormous size, many open at a time on very tall strong spike. Color, begonia-rose, striped with flame scarlet; lower petals pale lemon, speckled ruby 2.50

Peace. Immense pure white flowers with a touch of carmine in the lower petals. These are borne on tall, graceful spikes; a beautiful and exceedingly refined variety 1.00
GLADIOLI—Continued.

Prince of Wales. An early flowering sort with fine spikes of large flowers of delicate apricot-pink suffused salmon $1.00 $7.50

Purple Glory. Large spike carrying enormous flowers of a fine, deep, velvety maroon, with almost black blotches; the Giant of the Kundredi Glory race. Remarkably colored. Beautifully ruffled 2.50 20.00

Rose Ash. Corinthian red shading into ashes-of-roses on the outer edges. Lower petals light yellow speckled with ruby. Flowers large and well placed. A grand combination of old rose tones and the general effect commonly known as “ashes-of-roses.” In color, general formation of petals and stamens exhibit it is different from existing types. The rare pastel colorings blend harmoniously with almost any color combination. Strong, tall spikes with many closely set, large blooms, immediately attract attention. Unquestionably the most artistic variety 1.50 10.00

War. A magnificent dark variety with tall spikes well filled with large flowers of a rich blood-red shaded with crimson-black 1.00 7.00

Mixed Gladioli

Large-Flowered Exhibition Mixture of fine, large-flowering varieties, containing beautiful forms and shades that will harmonize well. $45.00 per 1000 65 5.00

Primulinus Exhibition Mixture of finest improved Primulinus, containing the most beautiful forms and all pastel shadings that will harmonize well together. $28.00 per 1000 .50 3.00

Primulinus Hybrid Gladiolus

The original of this type, introduced from South Africa, has been wonderfully improved in the last few years by crossing with choice garden varieties; they are quite distinct from the usual run of Gladiolus, being of more slender growth, the orchid-like flowers set airily on the slender, yet strong spikes; the range of colors is brilliant and beautiful and planted in fair sized groups in the garden make a very showy display, but it is as cut flowers that their grace and wonderful coloring show to best advantage. We offer six choice named sorts as follows:

Hyacinthus Candicans

(Cape Hyacinth)

A white Summer-flowering Hyacinth, growing 3 to 5 feet in height, gracefully surmounted with from 20 to 30 pure white, bell-shaped flowers. 75c per 3; $2.00 per doz.; $10.00 per 100.

Ismene Calathina

(Peruvian Daffodil)

A grand Summer-flowering bulb, producing with great freedom large Amaryllis-like, pure white, fragrant blossoms. Keep the bulbs in a warm place, and plant out in June. Bulbs can be taken up in October, and, after a few weeks’ rest, potted and flowered in the house in the Winter, or kept over for planting out another season. 25c each; $2.50 per doz.; $20.00 per 100.

Tuberoses

Double Pearl. One of the most delightfully fragrant and beautiful of the Summer-flowering bulbs. For flowering in the open, plant the bulbs in the middle of May, or as soon as the ground becomes warm. Strong flowering bulbs. $1.25 per doz.; $8.00 per 100.
Montbretia - Tritonia

Montbretias are graceful flowers of the mid-summer and Autumn, reflecting the colors of the Autumn and lending a charming gayety and lightness to the borders. For the best effect the small bulbs should be set only a few inches apart, and in groups of not less than a dozen, near the front of herbaceous borders or shrubbery. Their long lasting qualities make Montbretias most admirable for cutting, so that it is well to have a few hundred bulbs set out in some by-place where they may be cut for house decoration.

For the best effect the small bulbs should be set only a few inches apart, and in groups of not less than a dozen, near the front of herbaceous borders or shrubbery. Thus planted the sheaves of narrow leaves and slender, arching stems strung with brilliant flowers, like miniature gladioli, have the appearance of little fountains of bright color—scarlet, yellow, orange, red often marked with brown. They flower for many weeks, and the gay patches of color are delightful indeed. South of Philadelphia these Cape bulbs may with entire safety be left in the open ground over the Winter, merely covered with a light mulch. But in the North they are best treated after the manner of gladioli and stored in some frost-proof place. They may be set out in the Spring as early as we plant gladioli, and should be put in the ground at least five inches deep.

**Crococsmæcola.** Pure yellow, reverse of petals orange; large flowers. $1.50 10.00
**Geo. Davison.** Pale orange-yellow, tinted with deeper orange externally. 1.50 10.00
**Hereward.** Pale orange-yellow, resembling the variety George Davison, but nearly one month later. The flowers have the shape of Marigold lilies. 2.25 15.00
**King Edmund.** A robust grower with large, open flowers, rich yellow, with a carmine-blotched center. 1.50 10.00
**Lady Hamilton.** Yellow suffused with a richer color until it becomes apricot. The flowers are more trumpet shaped than other varieties and peculiarly graceful. 3.00 20.00
**Lord Nelson.** A handsome dark-stemmed variety, flowers of great substance, of a rich, deep orange, outside vermilion. 1.50 10.00
**Prometheus.** Award of Merit. A magnificent flower four inches in diameter; deepest orange with showy crimson ring around the eye; most distinct. 5.00 45.00
**Queen Adelaide.** Award of Merit. Deep orange, shading to red almost as deep as Germania; very vigorous large flowers three to four inches in diameter. 5.00 45.00
**Rosea.** A very lovely species, bearing in Summer dainty spikes of pretty rose colored tubular flowers. A charming little plant, distinct and very free flowering; while the individual flowers of this variety cannot be compared with many of the other named sorts, it is a plant well worth growing and splendid for table decoration, being very light in its habit. 1.50 10.00
**Star of the East.** First Class Certificate; Award of Merit. One of the finest Montbretias ever raised, pale yellow, with lemon-yellow eye, expanding quite flat and held erect. The flowers are much larger than any other variety, best blooms measuring five inches in diameter. The size, vigor, color and habit are magnificent and unequalled. 5.00 45.00
**Rheingold.** A beautiful clear golden yellow; large spike and very vigorous grower. 1.50 10.00
**Speciosa.** Richest of all in color; flowers large, of intense scarlet shade. 1.50 10.00

**Watsonia**

Gladiolus-like bulbs and habit, flowers smaller, more on the order of Giant Montbretia. General appearance of plant is that of a cross between the two; treat the same as gladiolus bulbs. These bulbs are easily grown; flower in late Summer.

**Ardernei alba.** This is the large, snow-white South African "Bugle Flower," and a most lovely plant for pots and pans in the cool greenhouse. Recommended for conservatory and garden. The graceful branches grow from 2 to 3 feet high, covered with elegant, glistening, snow-white blossoms. Remove the top flowers when fading, and lower spikes rapidly develop, thus maintaining a long flowering season. Grow like gladioli. 75c per 3; $2.00 per doz.; $15.00 per 100.

**Firebrand.** Same as alba with orange-red blossoms. 75c per 3; $2.00 per doz.; $15.00 per 100.

**Burbank Hybrids Mixed.** In all shades of pink, white and orange to red. $1.25 per 3; $3.50 per 12; $25.00 per 100.

**Zephyranthes**

(Ezphyr Flower or Fairy Lilies)

Beautiful dwarf, bulbous plant, very effective for massing in the border, flowering with great profusion during the Summer. They are also suitable for pot culture and rock garden.

**Alba.** Pure white. 30c per 3; $1.00 per doz.; $6.00 per 100.

**Rosea.** Large rose colored. 60c per 3; $2.00 per doz.
Hardy Plant and Alpine Plant Seeds

Gathered at The Wayside Gardens

We take great pleasure in offering under this heading a fine and practical list of hardy plant and rock plant seeds, harvested at our own nursery. We know this seed to be clean, pure and fresh, and past experience has shown us that home grown seeds germinate better and are much stronger than the imported seeds. Whenever possible we use our own seeds for the production of hardy plants and rock plants; but we cannot and do not give any guarantee as to results, knowing only too well that it requires more time and patience, and much more care to raise hardy plants and rock plants than a great many people are willing to give. It is only upon request of hundreds of our customers that we have decided to offer this condensed but choice list.

Please do not ask us to supply seeds not offered in this list.

The price is 25 cents per packet, except where otherwise noted; a liberal quantity of seed is supplied in each packet.

In ordering keep this list separate from the “Corvorton” list. Order by name only.

Page Seventy-three
When, a year ago, Mr. H. Correvon of The Floraire Nurseries visited this country on a lecture tour, we had the pleasure of having Mr. Correvon with us for a short time, and arranged with him to act as his representatives for the U. S. A. and Canada and to offer his seeds through the medium of our plant catalog.

Instead of offering his entire collection, Mr. Correvon has selected, with our aid, only such varieties as we feel reasonably sure will grow in this part of the world. We ask you kindly to mail your orders at once to our office. We will forward them to Switzerland where they will be put up individually by his own force and sent to us for redistribution. The price at which his seeds are offered includes postage, duty, and all other import charges. Delivery will be made by us immediately upon receipt from Europe.

Owing to the amount of work involved and the small profit on this type of material, Mr. Correvon requests check with order. Make checks payable to "The Wayside Gardens Co."

The price of all seeds from The Floraire Nurseries offered on pages 70 to 72 is 35c per packet.

No Correvon seeds are carried in stock by us. Hardy plant seeds are best sown in cold frames, Hardy Plant and Alpine Plant Seeds

GROUND COVERS

| Ajuga genevensis | Pachysandra terminalis | Ground cover and edging plant; does well in light shade; evergreen. |
| Ajuga reptans rubra | Prunella grandiflora | Good ground cover in full sun. |
| Asperula odorata | Sedum acre | Ground cover for sunny, dry places. |
| Lysimachia nummularia | Sedum sarmentosum | Good ground cover for either sunny or shady places; evergreen. |
| Mitchellella repens | Thymus | Good ground cover for shady places. |
| Phlox subulata alba | Veronica rupestris, all varieties | Good ground cover for shady places; evergreen. |
| Phlox subulata lilacina | Vines minor | Ground cover for shady places; evergreen. |
| Phlox subulata rosea | Euonymus radicans acuta | English Ivy |

Hardwood Ashes

Unleached hardwood ashes are the best source from which may be derived the most needed fertilizer—POTASH. Ninety-five per cent of the gardens in the United States today need Potash badly. Phosphates and nitrates, as a rule, have been abundantly supplied by most gardeners, but potash, owing to its scarcity has not been used where it ought to have been. We have contracted with a very large hardwood lumber company to supply us with all the hardwood ashes needed on our own nursery, and we have put up a few hundred barrels so that we may be able to help our customers in securing this most valuable material. Apply it either in the Fall or Spring at the rate of one pound to ten square feet. Hardwood ashes cannot be sold in bags, and are therefore offered in barrels weighing 200 lbs. each. We charge $5.00 for a 200-lb. barrel.

Imported Dutch Peat

Imported Granulated Dutch Peat is used with excellent results in the making of garden soils, especially those soils that are very heavy, or very dry. Peat stimulates the development of roots of all plants and in the Summer it is an excellent moisture retainer, as it absorbs more than eight times its own weight in water. For mulching perennial beds it is ideal. A slight covering of two inches thrown over the bed will prevent all freezing and heaving. As a mulch for strawberries, peat may be dug in and should not be removed. It acts, therefore, in a double capacity. If one wishes to plant such shrubs as Rhododendrons, Kalmias, Azaleas, Blueberries or Arbutus, (all these shrubs and plants like an acid soil) we can safely guarantee that soil prepared with 50 per cent Peat and 50 per cent top soil will grow any of these plants mentioned to perfection.

Lectures

We are prepared to give illustrated talks on bulbs, rock plants and hardy plants. Please write for further details.

Books

We have repeated requests for books giving information on bulbs, lilies, hardy plants and rock plants. Below we mention a few of the best which are obtainable from us.

ROCK PLANTS

“Rock Gardens and Alpine Plants,” by T. W. Sanders, F. L. S. This imported book is a complete guide to the construction of Rock Gardens and Rockeries, and the cultivation of Alpine Plants, with chapters on Bog, Water and Moraine Gardens. Profusely illustrated in color and half-tone. $5.00.

ROSES, CULTURE

We have a small pamphlet on this subject which is free and will be mailed upon request.

BULBS

“The Book of Bulbs,” by F. F. Rockwell. Pictures and text take you into the garden and show the almost limitless possibilities that bulbs offer. Types are discussed and varieties appraised for their suitability to different uses. Complete information on growing and propagation. $3.00.

HARDY PLANTS

“Popular Hardy Perennials,” by T. W. Sanders, F. L. S. This is a revised and new issue of this much-read book. $5.00.
TERMS OF BUSINESS

Quality of Stock Offered
All of the stock offered is grown on our own grounds, that grown from cut¬
tings and divisions we know to be clean and true. Plants grown from seeds,
are from seed stocks obtained from the most reliable sources, here and abroad.

Our plants are all field-grown, are given constant care and cultivation and
when sent out are strong and well developed, much larger and worth a great
deal more money than pot-grown plants.

We do not divide our plants before shipping but send the entire plant as
dug. Dividing is only done in rare cases and only then because it is necessary
to get the best results. If, after receiving, you are not satisfied with the
quality of the stock, let us know and we will replace anything you mention
without charge or without question.

Guarantees
We guarantee all stock furnished by us to be first-class, true to name, all
of a size so as to give immediate results. However, there are so many causes
for failure over which we have no control, that we can assume no responsi¬
bility after stock is delivered. Poor soil, unfavorable weather, ignorant or
careless culture—all contribute to failure and are beyond our control.

Terms of Payment
Customers unknown to us will please send cash or references with their
order. It is impossible for us to make immediate shipment to new clients
who do not send references or check with their order. Not sending references
or enclosing check causes delay in the forwarding of the stock you order.

Complaints
We are compelled to do all our work during two very short periods in the
Fall and Spring. In order to get stock shipped on time, it is necessary that
we work late in the night. An error is occasionally made during these rush
periods. We, therefore, suggest that you check over plants immediately upon
receipt. If any plants or bulbs have been damaged while in transit or if
shortages occur, notify us promptly, and corrections will be made imme¬
diately, or new stock sent without charge for that which is damaged. No com¬
plaints entertained ten days after date of shipment.

Quantities Ordered
We do not sell less than three plants of a kind unless offered otherwise.
Three to six plants are charged at three rate; seven to twenty-four, at twelve
rate; twenty-five and over, at hundred rate.

Recommendations
We are sincerely grateful to the numerous customers who kindly recom¬
mend our house, and on being favored with the name and address of any
friend possessing a garden, we shall always be pleased to forward our catalog.

Shipping Directions
Please give explicit shipping directions, stating whether stock is to be
shipped by parcel post or express. Small shipments can be sent by parcel
post. All such shipments will be sent insured, insurance and postage to be
paid by the customer. In the event you send remittance with your order,
 parcel post charges may be sent to us after you have received the package.
